KILKENNY COUNTY.

KILKENNY, an inland county in Leinster province. Boundaries: N., Queen's county; E., Carlow and Wexford; S., Waterford; W., Tipperary. Greatest length, N. and S., 46 miles; greatest breadth, E. and W., 24 miles; comprising an area of 796 square miles, or 509,732 acres, of which 470,102 are arable, 21,126 uncultivated, 13,899 in plantations, 1,549 in towns, and 3,056 under water. The surface is generally level, with some mountains; the subsoil chiefly limestone, with clay-slate and sandstone in the higher parts. A sulphureous coal, used for smelting and smiths' work, and for culinary and domestic purposes, is raised at Castlecomer. The soil is light, loamy, and very fertile in the valleys. The Nore passes through the middle of the county; the Barrow borders it E., and the Suir S.; both these border rivers are navigable to a considerable distance, as is the Nore for small barges. The population in 1841 was 183,349, of which 173,157 were in the rural, and 10,192 in the civic district, exclusive of Kilkenny city; and in 1851 the total population of the same district was 138,773, being a decrease of 44,576. The occupations are agricultural; the manufactures, flour, beer, whiskey, and leather; that of wool being nearly extinct.

The county is divided into 10 baronies—Callan, Crannagh, Fassadinin, Galmoy, Gowran, Ida, Iverk, Kells, Knocktopher, and Shillelogher, and contains 143 parishes. Its principal towns are, Kilkenny, population in 1851, 15,808; Callan, 2,368; Grignuanamagh, 1,710; Thomastown, 1,843; Freshford, 1,097; Castlecomer, 1,724; Urlingford, 1,187; and Ballyragget, 1,170. The county is in Osory diocese, except a small portion in Leighlin. It returns 3 members to Parliament; 2 for the county, constituency, in 1853, 5,113; and 1 for Kilkenny city, constituency, 575. It is in the Leinster Circuit. The Assizes are held in Kilkenny. The county is within the South-Eastern or Curragh military district, and there are Barrack stations at Kilkenny and Castlecomer.

The net annual value of property rated to the poor in the county is £334,633, and the amount of property valued under 6 and 7 Wm. IV., cap. 84, is £346,476.

KILKENNY CITY.

KILKENNY, an inland county of a city in Leinster province, 73 miles S.W. from Dublin, comprising an area of 264 square miles, or 17,012 acres, of which 921 are in the city and 16,091 in the rural district; population in 1841, 19,071 in the former, and 4,554 in the latter portion; total, 23,625, inhabiting 3,788 houses; population in 1851, 15,808.

The town, built on the river Nore, which is crossed by 2 bridges, consists of 2 parts, the Irish and English towns; the latter of which still retains its name, while the former has merged into that of Kilkenny. The principal buildings are, the Cathedral, 2 Parish Churches, 7 Roman Catholic chapels, 2 Monasteries, a convent, Presbyterian and Methodist Meeting-houses, an endowed school called the College, a Roman Catholic College, the County Court House, the County and City Prisons and Infirmary, a Fever Hospital, the Tholsel, Union

Workhouse, Barracks, and Kilkenny Castle, the residence of the Marquess of Ormonde, 'on an eminence overlooking the valley of the Nore. The Mall is a public walk along the bank of the river, and has been much improved within the last few years. The manufacture of blankets, coarse woollens, and linens has declined. Coal and marble are raised in the neighbourhood; the former is sulphureous, and burns without smoke or flame; the latter, which is black, is much used for chimney-pieces and ornamental purposes. There are breweries, tanneries, and flour mills in the city and its vicinity.

There were formerly 2 municipal Corporations, that of the English town or city of Kilkenny, styled "The Mayor and Citizens of the City of Kilkenny," possessing an annual revenue of upwards of £2,000, and that of **Irishtown or St. Canice**, styled "The Portreeve, Burgesses, and Commons of the Borough of Irishtown," annual revenue, £15; but by the provisions of the late Municipal Reform Act they are amalgamated, and return 1 member to Parliament; constituency in 1853, 575. The Fairs, all toll free, are, Kilkenny, 5th March and 22nd October; Kilkenny city, 28th March and 8th June, and an additional one on the 1st Thursday in each month, with markets on Wednesdays and Saturdays. The Assizes for the county are held in the New Court House, built on the site of Grace's Old Castle; Quarter and Petty Sessions are also held in the town. The Mayor holds a weekly Court of Conscience in which debts amounting to £2 Irish may be recovered. The income of the borough in 1851 amounted to £2,046, of which £1,946 were derived from rents, tithes, &c. The expenditure at about the same time was £2,029, £394 in salaries and pensions to municipal officers, £464 rents, &c., £415 lighting and cleansing, £241 public works, and the remainder in miscellaneous expenses.

Lieutenant, Colonel The Right Hon. Wm. FREDERICK FOWNES TIGHE, Woodstock, Innistigue.

KINSALE BOROUGH.

KINSALE, a maritime town and parliamentary borough in Kinsale barony, Cork county, and Munster province, 177 miles S.W. from Dublin; comprising an area of 290 acres; population in 1851, 5,566, inhabiting 806 houses; average, nearly 7 persons to a house.

The town is built on the side of Compass Hill, at the mouth of the river Bandon, which is crossed by a ferry. Some of the streets are so steep as not to admit carriages. The public buildings are the Parish Church, a Roman Catholic Chapel, a Convent, Carmelite Friary, 2 Methodist Meeting-houses, a Town Hall, and Prison, Work-house, Assembly Rooms, and Barracks. It is supported chiefly by the resort of summer visitors and the fisheries, which average £500 a week. The fishermen are esteemed the most skilful of any in Ireland, both in their own calling and as pilots: the number of fishing vessels engaged in 1856 was 588, employing 5,738 men and 136 boys. Lobsters and oysters are taken along the shore. There is a brewery in the town, and flour-mills adjacent.

The late Corporation, which was styled "The Sovereign, Burgesses, and Commonalty of the Town of Kinsale," was dissolved under the Municipal Act, and its income and revenue vested in the Town Commissioners, under 9 Geo. IV., cap. 82. The income of the Borough amounted in 1851 to £255, of which £78 was expended in salaries, pensions, &c., and the remainder in rent, taxes, and miscellaneous expenditure. It returns 1 member to Parliament; constituency in 1853, 156. Petty Sessions are held in the town. The Fair on 4th September; Markets on Fridays, and Saturdays. The paving and cleansing of the streets are vested in 13 Commissioners, under the Act of 9 Geo. IV., cap. 82; value of property rated, £7,573; amount of rate in 1842, £40, levied on 135 houses, valued at from £5 to £10, and rated at ld. per pound; 202 at from £10 to £20, at 1½d.; and 141 of £20 and upwards, at 2d.

The harbour is excellent, having 6 or 8 fathoms water, and capable of accommodating 300 sail of vessels, at a cable's length from the shore, and 14 feet, at low ebb, at the mouth of the harbour; its entrance is protected by Charles Fort, now a barrack; during the war it was frequently visited by men-of-war, and had a Government dock; but since the peace its naval importance has declined. Its commerce is checked not only by its proximity to the port of Cork, but by its isolated situation.

Member for the Borough—JOHN ISAAC HEARD, esq. (1852), Kinsale, and Union Club, London.

Local Magistrates, J. J. Heard, esq., M.P., Achilles Daunt, esq., Marmaduke C. Cramer, esq., Jeremiah M'Daniel, esq., Henry C. Bowen, esq., John S. Bird, esq., Richard Charles Pratt, esq., Robert Heard, esq. *Fort Major*, Lieut. John Black.

LIMERICK COUNTY.

LIMERICK, a maritime county in Munster province. Boundaries: N., the estuary of the Shannon, Clare, and Tipperary; E., Tipperary; S., Cork; W., Kerry. Greatest length, N. and S., 35 miles; greatest breadth, E. and W., 54 miles; comprising 1,061 square miles, or 680,842 acres, of which, 526,876 are arable, 121,101 uncultivated, 11,575 in plantations, 2,759 in towns, and 18,581 under water. The surface is an undulating plain, watered by the Maigue, Deel, and Mulcair, and rising into mountains in the N.E., S., and S.W. The subsoil is limestone, trap, and sandstone. The soil is peculiarly fertile, particularly in the morasses along the Shannon, and in the Golden Vale, which extends from the borders of Tipperary westward through the centre of the county.

The population in 1841 was 281,532; 274,520 in the rural, and 7,118 in the civic district, exclusive of Limerick city; and in 1851 the total population of the same district was 208,608, being a decrease of 72,844. The occupations are chiefly agricultural; pasturage and dairy farming are most cultivated; tillage less attended to. Large quantities of produce are exported; the manufactures are coarse woollens, paper, flour, and meal.

The county is divided into 14 baronies—Clanwilliam, Connello Lower and Upper, Coochiga, Coshlea, Coshma, Glenquin, Keury, Kilmallock Liberties, North Liberty, Owncebeg, Pubbliebrien, Shanid, and Small County; and contains 131 parishes. Glenquin, North Liberty, and Shanid baronies have been lately constituted; and that part of the county of the city without the new municipal boundary has been apportioned between Clanwilliam and Pubbliebrien baronies, with the exception of the portion N. of the Shannon, which has been made a distinct barony. The county is in Limerick and Emly dioceses, with small portions in Cashel and Killaloe. The principal towns are Limerick, Rathkeale, and Newcastle; population in 1851, 53,448, 3,029, and 2,513. The county returns 4 members to Parliament, 2 for the county at large, constituency in 1853, 6,249; and 2 for Limerick city, constituency, 1,920. It is in the Munster circuit. The Assizes are held at Limerick. The county is in the Cork military district.

The annual amount of property valued for the Poor-rate is £438,527; and the amount of property valued under 6 & 7 Wm. IV., cap. 84, is £470,699.

Lieutenant and Custos Rotulorum, The Right Hon. the Earl of CLARE (1851), Colonel of the Co. Limerick Militia, Mount Shannon, Lisnagry, and 39, South-street, Grosvenor-square, London.

LIMERICK CITY.

LIMERICK, a maritime county of a city, in Munster province, situate at the interior extremity of the estuary of the Shannon, between Limerick and Clare counties, 119½ miles W.S.W. from Dublin, comprising an area of 60½ square miles, or 38,863 acres, of which 2,618 are in the city, and 31,245 in the rural district; population of the former part, 48,391, inhabiting 5,255 houses; average, 9 persons to a house; and of the latter, 16,905, inhabiting 2,645 houses; average, 6½; population in 1851, 53,448, inhabiting 5,565 houses.

The town, built on King's Island, and on both sides of the Shannon, which is crossed by five bridges, one of which, the Wellesley bridge, a magnificent structure, crossing the harbour, cost £85,000. It consists of the English and Irish towns, and Newtown-Pery. The principal buildings are the Cathedral, 5 Protestant Churches, 4 parochial and 4 conventual Roman Catholic Chapels, 5 Dissenting places of worship, the County and City Court Houses and Prisons, the Custom House, Barrington's Hospital, Fever and Lock Hospital, District Lunatic Asylum, which admits 347 patients, Mount St. Vincent Orphanage, Workhouse and auxiliaries, capable of containing 4,000 inmates; Savings' Bank, Chamber of Commerce, Model School, Town Hall, Flax Factory, Lace Factory, Corn and Butter Markets, and Barracks. The manufacture of linen, which had nearly expired, is now revived by the enterprise of Messrs. Russell and Sons; that of gloves continues; Limerick is also celebrated for the manufacture of lace and fishing hooks. There are distilleries, breweries, tanneries, foundries, flour mills, a patent slip for vessels of 500 tons, and 3 ship building slips.

The Corporation, styled "The Mayor, Aldermen, and Burgesses of Limerick," consists of 8 Aldermen and 32 Councillors, elected by the 8 wards into which the Borough is divided, and possesses an income amounting in March, 1846, to £8,162, chiefly arising from tolls and customs, amounting to £4,556, rents, £642, and presentments, £750; and of which £1,695 is applied in salaries and pensions, &c., to municipal officers, and £197 for lighting, paving, and cleansing the city, &c.; £5,485 in public works and repairs. The Borough returns 2 members to Parliament; constituency in 1853, 1,920. The Assizes for the county and county of the city are held here, also Quarter and Petty Sessions. The Mayor holds a Court of Conscience for pleas under 40s., and the Assistant Barrister holds a Civil Bill Court for the county and city. Fairs are held in Limerick on Easter Tuesday, 4th July, 4th August, and 4th December; and Markets on Wednesdays and Saturdays; the Great Munster Fair in Spring and Autumn. The city is the head-quarters of the Limerick or S.W. Military District, and within its limits there are Barrack stations as follow:—The Castle, Ordnance, and Boherboy Barracks, and the station of a Resident Magistrate, and of a Constabulary County Inspector.

The harbour at the head of the estuary of the Shannon, the noblest river in the kingdom, extends about 1,600 yards in length and 150 in breadth, with from 2 to 9 feet at low water, and 19 at spring tides; which latter enables vessels of 600 tons to moor at the quays. Nearly in the middle of the harbour the Wellesley bridge crosses, and has a portcullis for admitting vessels. The quays, and wharfe, on which there are five

cranes, extend 1,600 yards, and cost £18,000 in the erection. The port is now under the control of 43 Commissioners, 25 for life, 2 *ex-officio*, and 15 biennially elected, according to the amended Act 10 and 11 Vict., cap. 198, by whom there is appointed a secretary, harbour master, &c., and 50 pilots. The revenue in 1851 was £7,513, derived chiefly from import and export duties, rent and bridge tolls. The commerce of the port has considerably increased, and will be greatly benefited by the floating docks opened in Sept. 1853, and constructed at an expense of £54,000, advanced by the Treasury, on the security of the rates of the port; in 1836 there was scarcely a vessel belonging to it; there are now 105, of 13,834 tons, and some of which exceed 800 tons each, and the Customs' duties and port dues have also proportionably advanced. In 1835 the exports were, £26,430; in 1842, upwards of £1,200,000. There are four newspapers in the city: *The Limerick Chronicle*, published on Wednesday and Saturday; *The Limerick Reporter* and *The Tipperary Indicator*, Tuesday and Friday; *Munster News*, on Wednesday and Saturday; and *The Limerick Herald*, on Wednesday and Saturday.

LONDONDERRY CITY.

LONDONDERRY, a maritime city and parliamentary borough, in county of city and county of Londonderry, and Ulster provinces, 144 miles N.N.W. from Dublin; lat. 54° 59' N., long. 7° 19' W.; comprising an area of 497 acres within its present municipal boundary, and of 13,678 acres within the district which constitutes the barony; population in 1834, Protestants, within the walls, 662, without, 1,809, total 2,571; Presbyterians, within, 790, without, 2,154, total 2,944; Roman Catholics, within, 689, without, 6,409, total, 7,098; number of all persuasions within the walls, 2,142, without, 10,472; general total, 12,614; population in 1841, of the former area, 15,196,

Inhabiting 2,100 houses; average, 7 persons to a house; and of the latter, 20,379, inhabiting 3,017 houses; average, 6 to a house; population in 1851, 19,888, inhabiting 2,446 houses.

The city is situate on a hill, 119 feet above high water, projecting into the western side of the river Foyle, 4 miles from its opening into Lough Foyle, and is surrounded by an ancient rampart a mile in circumference, with 6 gates, beyond which the buildings have been considerably extended; a square in the centre, from which the four principal streets diverge, is called the Diamond. The river is crossed by a wooden bridge 1,068 feet long, connecting the city with the village of Waterside. The public buildings are, the Cathedral and 2 other Protestant Churches, 2 Roman Catholic Chapels, 6 Presbyterian, an Independent and 2 Methodist Meeting-houses; the Episcopal Palace, Foyle College, Gwyn's Charitable Institution, the County and City Court House, Prison, and Infirmary, Corporation Hall, the Custom House, the District Lunatic Asylum, Union Workhouse, and a Barrack. In one of the city bastions there is a pillar erected in memory of the Rev. George Walker, governor of the city during the siege in 1689. There are 2 flax spinning-mills, and several flour mills, 3 distilleries, 3 breweries, 2 large rope walks, and several smaller, 1 foundry, and 5 tan-yards; near it is a salmon fishery.

The Corporation, styled "The Mayor, Aldermen, and Burgesses of the Borough of Londonderry," consists of 6 Aldermen and 18 Councillors, elected from the 3 wards, North, East, and South. The city returns 1 member to Parliament; constituency in 1853, 823. The Municipal Government is vested in the Mayor, elected by the Corporation, the Aldermen, Councillors, and 12 Borough Magistrates, appointed by the Lord Lieutenant. There is a Court of Record with pleas to an unlimited amount, and a Court of Conscience for pleas under 40s. Irish currency, held by the Mayor. The income of the Borough is £12,000, of which £11,500 is applied in the payment of rents, salaries, annuities, and public improvements. The Assizes for the county, also Petty Sessions, are held in the city. The Recorder holds Quarter Sessions. The Fairs are on the first Wednesday in each month; and 17th June, 4th September, and 17th October; Markets every week-day for butchers' meat, fish, pork, vegetables, eggs and poultry, fruit, butter, meal, potatoes; flax, market-day Thursday; also cattle, horse, and 2 grain markets.

The port is formed by the river Foyle, which here expands into a spacious and navigable estuary, possessing great natural advantages. It is under the jurisdiction of the Irish Society, who appoint a Vice-Admiral over it, and the lough, and adjacent coast. It is also in charge of a board of Port and Harbour Commissioners, under Act of 17 and 18 Vict. There are harbour, pilot, and ballast masters, and 29 pilots under the control of the Board. The quays, which are chiefly private property, are in many respects neglected; spring tides rise 9 feet, and vessels of 500 tons can discharge at the quays; small craft can proceed about 7 miles up the river to St. Johnstown village, and barges by a canal to Strabane, 14 miles; a ship yard, with a patent slip attached, admits vessels of 800 tons. The income of the port in 1845, amounted to £1,990, arising chiefly from tonnage and anchorage dues, and pilotage. The Londonderry and Enniskillen Railway is open throughout, and the Coleraine and Derry line of Railway, which runs along the harbour at low water mark, is also completed. The exports are considerable. The salmon fishery of Lough Foyle is very productive, upwards of 36,000 or 100 tons are taken annually, the greater part being shipped to Liverpool. The coasting trade is considerable; an extensive emigration takes place, chiefly to the United States, Canada, and New Brunswick. There is a building-yard on the strand, at which several ships for the East India trade were built, and 2 steamers, 1 for the Liverpool and the other for foreign trade.

MAYO COUNTY.

MAYO, a maritime county in Connaught province. Boundaries: N., the Atlantic Ocean; E., Sligo and Roscommon; S., Galway; W., the Atlantic Ocean. Greatest length, N. and S., 58 miles; greatest breadth, E. and W., 72 miles; comprising an area of 2,131 square miles, or 1,363,882 acres, of which 497,587 are arable, 800,111 uncultivated, 8,360 in plantations, 648 in towns, and 56,976 under water. The coast is indented with the Bays of Killala, Broadhaven, Blacksod, the two last being separated from each other by the narrow isthmus of Belmullet, the entrance into the peninsula of the Mullet, Tulloghane Bay, Clew Bay studded with numerous islets, and the Killeries. Near the coast are the islands of Achill, 35,283 acres; Clare, 3,959 acres; Inishark, 1,451 acres; Inishobfin, 2,315 acres, and numerous smaller. The surface is of every character; much mountain and waste, and much level and fertile land. The summits of Mullren, Nephin, and Croagh Patrick, are 2,670, 2,530, and 2,370 feet above high sea level; on the summit of the last is a chapel dedicated to St. Patrick. The subsoil in the level parts is limestone; in the other parts red sandstone, mica-slate, granite, and quartz: iron ore abounds, but remains unwrought for want of fuel: there are several valuable slate quarries. Laker, Carragh, Cullen, Castlebar, Carramore Frogg, and some smaller, are within the county; those of Mask and Corrib border it on the S. The river Moy forms part of its E. boundary. The population in 1841 was 388,387; 869,138 in the rural, and 19,749 in the civic district; and in 1851 the total population of the county was 274,612 being a decrease of 114,275. The occupations are agriculture and fishing; pasturage is more attended to than tillage; the linen manufacture flourished here, but has declined. The salmon fishery on the Moy and the other rivers of the county, is very considerable.

The county is divided into 9 baronies—Burrischoole, Carra, Clanmorris, Costello, Erris, Gallen, Kilmaine, Murrisk, and Tyrawley, and contains 73 parishes. It is in the dioceses of Tuam, Killala, and Achonry. The principal towns are, Castlebar, population in 1851, 4,436; Westport, 4,815; Ballinrobe, 2,162; Clare, 1,562; and part of Ballina, 4,647, the remaining part, containing 583 inhabitants, being in Sligo county; total population, 5,230. The county returns 2 members to Parliament; constituency in 1854, 2,274. It is in the Connaught circuit. The Assizes are held at Castlebar. The county is within the military district of Dublin; and there are Barrack stations at Castlebar, Ballinrobe, Westport, Foxford, and Ballaghaderreen.

The net annual value of property rated to the poor in the county, is £217,467, and that valued under 6 & 7 Wm. IV., cap. 84, amounts to £296,621.

MONAGHAN COUNTY.

MONAGHAN, an inland county in Ulster province. Boundaries: N., Tyrone; E., Armagh and Louth; S., Meath and Cavan; W., Fermanagh. Greatest length, N. and S., which 285 miles; greatest breadth, E. and W., 28 miles; comprising an area of 500 square miles, or 819,767 acres, of which 235,885 are arable, 21,585 uncultivated, 5,816 in plantations, 304 in towns, and 6,167 under water. The general surface is hilly, and mountainous in the N.W. and to the E., joining Armagh. The highest point of the Blivebeagh range is 1,254 feet above high sea level. The soil is of every variety; that in the more level portion, which forms the N. part of the great central limestone plain of Ireland, is very fertile, but the more hilly parts are a stiff clay, good for flax and corn, though very difficult to work. The lakes and rivers are numerous, but small; the N. Blackwater, which falls into Lough Neagh,

forms a part of the E. boundary. The Ulster Canal passes through the county. The population in 1841 was 200,407; 191,301 in the rural, and 9,141 in the civic district, and in 1851 the total population of the county was 141,758, being a decrease of 58,649. The occupations are almost wholly agricultural; spade husbandry is much practised; the main crops are, oats, barley, potatoes, and flax; which latter, from its improved culture, is vastly increasing, both in quantity and in value; the culture of wheat and of green crops is increasing; the linen manufacture is reviving.

The county is divided into 5 baronies—Cremorne, Dartree, Farney, Monaghan, and Trough, and contains 23 parishes. It is wholly in the archdiocese of Armagh. The principal towns are Monaghan, Clones, Castleblayney, Carrickmacross, and Ballibay; population in 1851, 3,484, 2,333, 2,084, 2,534, and 1,617. It returns 2 members to Parliament; constituency in 1853, 4,924, and is in the North-East Circuit. The County Prison is in Monaghan, where the Assizes are held. The county is within the military district of Dublin; and there is a Barrack station at Monaghan.

The annual amount of property valued for poor-rate is £248,266; that of property, under the Act of 6 & 7 Wm. IV., cap. 84, £201,034. One newspaper, the *Northern Standard*, is published in the county, at Monaghan, on Saturdays.

NEW ROSS BOROUGH.

New Ross, an inland town and parliamentary borough, partly in Bantry barony, Wexford county, and partly in Ida barony, Kilkenny county, and Leinster province; 83 miles S.S.W. from Dublin, comprising an area of 544 acres, being the parliamentary boundary, which includes Rosbercon; population 7,543, inhabiting 1,129 houses, not including Rosbercon; average, 7 persons to a house: population in 1851, 7,941, inhabiting 1,021 houses.

The town is situate on the side of a hill, over the Barrow, 2 miles below its junction with the Nore. The larger portion is connected with the smaller, named Rosbercon, by a wooden bridge, 510 feet long, with a causeway of 150 feet, built in 1796, at a cost of £11,200. In the centre of the bridge is a portcullis 27 feet wide to admit vessels. The public buildings are, 2 Protestant Churches, 2 Roman Catholic Chapels, a Friary, Nunnery, Presbyterian, Independent, 2 Methodist, and Friends' Meeting-houses, Fever Hospital, Dispensary, and Lying-in-Hospital, Union Workhouse, Sessions House, Bridewell, Market House or Tholsel, Corn Market, Fish Market, and Barrack. There are breweries and tan yards. The town is lit with gas; and there is one News-room and a Circulating Library.

The trade of the port is extensive and improving—the landing place on the east bank of the river, 10 miles above its junction with the Suir, where new quays are erecting at a cost of about £3,000, is from 200 to 300 yards wide, with depths of from 15 to 26 feet at low water. A brisk trade is carried on by the Barrow, which admits vessels of 200 tons register to discharge at the quay at all times of the tide, and those of 800 at high springs. Vessels of small tonnage can proceed beyond the town by the Nore to Inistigue, and by the Barrow to St. Mullins, and barges still farther to Athy, where the junction of the river with the Grand Canal affords a water communication with Dublin on the one side, and Limerick on the other. Above and below the town there is a salmon fishery. The principal exports are, grain, flour, wool, butter, fowl, and bacon. The port, which had been a dependency on Waterford, was made an independent shipping port in 1840.

The management of the late Corporate property, amounting in 1851 to £312 17s. 1d., in rents and tolls, £344 13s. 7d., borough rates and miscellaneous receipts, £43 9s., making a total of £700 19s. 2d., is vested in Commissioners under the 17th and 18th Victoria, cap. 103. The number of houses valued for the Borough Assessment was 153 from £5 to £10, rated at 4d. in the pound; 155 from £10 to £20, rated at 6d.; and 136 from £20 upwards, rated at 9d.; total rates, £273 18s. 2d.; total amount of rateable property assessed, £8,754 14s. The Borough returns 1 member to Parliament; constituency in 1853, 467.

"The port of Newry," as stated by the Fidal Harbour Commissioners, in their 2nd Report (Session of 1846, p. 61), "lying as it does within Carlingford Lough, at a moderate outlay, might be made a harbour of refuge, which would prove an inestimable boon on this part of the coast." The lough is navigable for 6 miles by vessels of the greatest burden at all times, and the port admits vessels of 1,000 tons to Warrenpoint, 6½ miles from the town; where the larger vessels remain, but those drawing 15 feet water can go up by the ship canal to the Albert basin, Newry, a distance of 5 miles from the sea. Barges ply by the Newry Canal Navigation to Lough Neagh, 32 miles distant inland. The Newry Navigation Company have the management of the port and canal, the latter of which extends along the west side of the river. There are now two steam-boats regularly sailing twice each week to Liverpool. The income of the port in 1850, amounted to £5,000, arising from canal dues, on tonnage, 1s. per ton inwards, and 1d. outwards. The Belfast junction railway passes within 1 mile of the town, and, with the Newry and Enniskillen, and the Newry, Warrenpoint, and Rostrevor railway, which is completed to Warrenpoint, will greatly facilitate the trade of the town. The principal exports are grain, provisions, cattle, eggs, and butter. Its chief market is Great Britain, but it trades also with North America, the Baltic, and the Levant.

Member for the Borough—WILLIAM KIRK, esq. (1852), Annvale, Keady, county Armagh, and 32, Pall-mall, London.

SLIGO BOROUGH.

SLIGO, a maritime town and parliamentary borough in Carbury barony, Sligo county, and Connaught province, 131 miles N.W. from Dublin; lat., 54° 22' N.; long., 8° 22' W.; comprising an area of 3,001 acres, of which 417 are in the town, and 2,584 in the rural district; population of the former portion, in 1841, 12,272, and of the latter, 2,046; total, 14,318, inhabiting 2,349 houses. Population in 1851, 11,104, inhabiting 1,840 houses.

It is situated near the mouth of the Garogue, which is crossed by 2 bridges, and discharges itself into Sligo Bay. The public buildings are, 2 Protestant Churches, a Roman Catholic Chapel, 1 Friary, or Abbey Church, Presbyterian, Independent, and 2 Methodist Meeting-houses; the County Court House, Prison, Infirmary, and Fever Hospital, the Union Workhouse, and a Lunatic Asylum. The manufactures are linen, muslin, flour, meal, whiskey, and beer. There is a salmon fishery in the river, the property of Abraham Martin, esq. The number of salmon taken in 1845 was 2,240, weighing nearly 7½ tons, valued at 10d. per lb.

The Corporation, styled "The Mayor, Free Burgesses, and Commonalty of the Borough of Sligo," consists of 6 Aldermen and 18 Councillors elected from the 3 wards, Northern, Eastern, and Western. The income of the Borough for 1851 amounted to £282, which was applied chiefly in salaries and pensions to municipal officers, the markets, public works, and repairs, &c. The Borough returns 1 member to Parliament; constituency in 1853, 351. The Fairs are on 27th March, 7th May, 4th July, 11th August, and 9th October; Markets on Tuesdays and Saturdays. The Assizes for the county, also Quarter and Petty Sessions, are held in the town.

The port is under the control of Town and Harbour Commissioners, elected for life, under local Act, 43 Geo. III., cap. 60, and 9 & 10 Vic., cap. 77. It will admit vessels of 13 feet draught of water to moor at the quays, which have recently been considerably extended and improved by the Board. That called the Ballast bank quay is 2,248 feet long, and cost £2,704. Vessels of large draught have to anchor in the pool, which is safe and secure, but inconvenient for discharging or taking in cargoes. It has a harbour and ballast master, and 19 pilots. The income of the port in 1847 amounted to £2,800, arising from harbour dues and ballast, which is applied to building and repairing the quays, &c. The Sligo and Enniskillen Railway, when completed, will run along the north shore of the harbour. Four newspapers are published in the town, the *Sligo Champion* on Mondays, the *Sligo Chronicle* on Saturdays, the *Sligo Independent* on Wednesdays and Saturdays, and the *Sligo Journal* on Fridays.

TIPPERARY COUNTY.

TIPPERARY, an inland county in Munster province. Boundaries: N., Galway and King's; E., King's, Queen's, and Kilkenny; S., Waterford; W., Cork, Limerick, Clare, and Galway. Greatest length, N. and S., 70 miles; greatest breadth, E. and W., 40 miles; comprising an area of 1,659 square miles, or 1,061,731 acres; of which 843,887 are arable, 178,183 uncultivated, 23,779 in plantations, 2,359 in towns, and 13,523 under water. The surface rises into the mountains of Knockmeleadow, the Galtees, and Slievenaman in the S., the group of which Keperhill is the principal in the W., and into the Slievardagh hills, E. The soil of the level country is a rich calcareous loam, of extraordinary fertility, particularly in the tract called the Golden Vein, extending from Limerick to the confines of Kilkenny county, and in the centre of which is Tipperary town, and in another similar tract of level ground, in the Ormond baronies. The Suir and Nore rise in the Devil's Bit mountain, near Templemore; the former, for the greater part of its course, running through the county; the Shannon forms part of its western boundary. The subsoil is clay-slate in the mountain districts, and limestone in the more level tracts, which form part of the great central plain of Ireland, and include some branches of the Bog of Allen. The mineral productions are coal, copper, and lead, and slates of a good

quality are extensively raised near Carrick-on-Suir; copper at Hollyford and lead at Shallee are found most abundantly; the lead is rich in silver. The population in 1841 was 435,553; 364,261 in the rural, and 71,292 in the civic district; and in 1851 the total population of the county was 331,487, being a decrease of 104,066. The occupations are almost wholly agricultural. The produce is principally corn; wheat is grown in large quantities and of superior quality; dairies are numerous, affording an export of large quantities of butter. Flour and meal are also largely manufactured and exported. The woollen trade, which flourished in the southern part, is nearly extinct. Two establishments have recently been opened for the preparation of flax, on Schenck's patent system, 1 at Clonmel and 1 at Roscrea.

The county is divided into 2 ridings, N. and S., the North consists of 6 baronies, Ormond Lower and Upper, Ownay and Arra, Ikerrin, Eliogarty, and Kilnemanagh Upper. The South Riding has also 6 baronies, Sherardagh, Kilnemanagh Lower, Middlethird, Clanwilliam, and Ifa and Ofa East and West, and contains 193 parishes. It is in the dioceses of Cashel, Emly, Killaloe, and Lismore. The principal towns are, Clonmel, population in 1851, 12,518, including 151 on the county Waterford side of the river Suir; Nenagh, 7,349; part of Carrick-on-Suir, 6,223; Thurles, 5,921; Tipperary, 7,001; Cashel, 4,798; Roscrea, 3,496; Fethard, 2,767; Caher, 3,719; Templemore, 4,375; Clogheen, 1,562. The county returns 4 members to Parliament, 2 for the county at large, constituency in 1853, 7,262; and 1 each for the boroughs of Cashel and Clonmel, constituencies, 126 and 328. It is in the Leinster Circuit. The Assizes for the North Riding are held in Nenagh, and for the South, in Clonmel. The county is within the military district of Cork; and there are Barrack stations at Nenagh, Roscrea, Templemore, Thurles, Caher, Clogheen, Bansha, Caher Castle, Cappawhite, Carrick-on-Suir, Cashel, Clonmel, Fethard, and Tipperary. Four newspapers are published in the county, the *Tipperary Free Press* and the *Clonmel Chronicle* at Clonmel, the *Nenagh Guardian* at Nenagh, and the *Midland Counties Advertiser* at Roscrea.

The net annual value of property rated to the poor in the county, is £618,148, and the amount of property valued under 6 & 7 Wm. IV., cap. 84, is £769,389.

Lieutenant and Custos Rotulorum, The Right Hon. Lord Viscount LISMORE, P.C. (1850), Shanbally Castle, Clogheen, in this county.

High-Sheriff (1856-57), Captain EDWARD BAGWELL PUREFOY, Greenfield, Tipperary.

TYRONE COUNTY.

TYRONE, an inland county in Ulster province. Boundaries: N., Londonderry; E., Lough Neagh and Armagh; S., Monaghan and Fermanagh; W., Fermanagh and Donegal. Greatest length, N. and S., 46 miles; greatest breadth, E. and W., 60 miles; comprising an area of 1,260 square miles, or 806,295 acres, of which 450,286 are arable, 311,867 uncultivated, 11,981 in plantations, 710 in towns, and 31,796 under water. The surface is hilly, rising into mountains in the N. and S., and declining to a level towards Lough Neagh; the soil in the lower districts is fertile, and watered by numerous branches of the Foyle and Blackwater rivers. Coal, fit for domestic purposes, is raised near Dungannon and Coal Island, a thriving and populous village, and indications of lead, coal, copper, and iron are frequent in the hilly districts. The population in 1841 was 312,956; 298,498 in the rural, and 14,458 in the civic district, and in 1851 the total population of the county was 255,734, being a decrease of 57,222. Tillage is practised on improved principles in the fertile parts; young cattle are reared in the hilly and mountain districts. The manufactures are linens, coarse woollens, whiskey, beer, flour, meal, chemicals, and coarse earthenware.

The county is divided into 8 baronies—Clogher, Dungannon Upper, Lower, and Middle, Omagh East and West, and Strabane Upper and Lower, and contains 46 parishes. It is in Armagh and Derry dioceses, with a small portion in that of Clogher. The principal towns are Strabane, population in 1851, 5,079; Dungannon, 3,854; Cookstown, 2,993; and Omagh, 3,385. It returns 3 members to Parliament; 2 for the county at large, constituency in 1853, 7,423; and 1 for Dungannon borough, constituency 191. The county is in the N. W. Circuit. The Assizes are held at Omagh. The county is within the military district of Dublin; and there is a Barrack station at Omagh. There is a Resident Magistrate at Omagh; and 4 stations of the Revenue Police in the county, at Killeter, Cookstown, Plumbridge, and Mountfield. There is one newspaper published in the county, at Omagh, *The Tyrone Constitution*, on Fridays. The Londonderry and Enniskillen railway is open throughout, and the Cookstown and Randalstown branch of the Belfast and Ballymena Railway is completed. A branch line from Portadown to Dungannon is in course of construction.

The net annual value of property rated to the poor in the county, is £366,010, and the amount of property valued under the Act 6 & 7 Wm. IV., cap. 84, £275,037.

WATERFORD COUNTY.

WATERFORD, a maritime county in Munster province. Boundaries: N., Tipperary and Kilkenny; E., Wexford; S., the Atlantic Ocean; W., Cork. Greatest length, N. and S., 28 miles; greatest breadth, E. and W., 52 miles; comprising an area of 721 square miles, or 461,553 acres, of which 325,345 are arable; 105,496 uncultivated, 23,408 in plantations, 1,525 in towns, and 5,779 under water. The surface is mountainous, the principal ranges being Knockmoleodon, Cumberagh, Monevolagh, and Drum; towards the E. it is low and marshy. The Suir bounds it on the N., and its estuary, called Waterford Harbour, on the E.; the Blackwater, with its estuary, called Youghal Harbour, on the W. On the coast are the Bays of Tramore, Dungarvan, and Ardmore; and at a distance from land, the Nymph bank, once thought to afford an inexhaustible supply of fish, but now less highly estimated. Lead and iron mines have been wrought, but generally with little profit; the copper mineral wealth is of high value; one mine, the Knockmahon, worked by the Irish Mining Company, exported in the year 1845, 9,000 tons of ore, value £69,000. Near Cappoquin and Whitechurch are valuable quarries of marble. The population in 1841 was 172,971; 149,207 in the rural, and 23,764 in the civic district, exclusive of Waterford city, and in 1851, the total population of the same district was 138,754, being a decrease of 34,217. The occupations are chiefly pasturage and dairy farming, but tillage is increasing; large quantities of butter and bacon are exported; cotton is manufactured.

The county is divided into 8 baronies—Coshmore and Coshbride, Decies within Drum, Decies without Drum, Gaultier, Glenahiry, Middlethird, Uppertthird, and Kileulliheen, and which, with the city, contain 82 parishes. It returns 5 members to Parliament; 2 for the county at large, constituency in 1853, 3,245; 2 for Waterford city, constituency 1,124; and 1 for Dungarvan borough, constituency 303. The principal towns are, Dungarvan, population in 1851, 6,965; Portlawn, 4,351; Lismore, 2,340; Tallow, 1,936; Carrickbeg, a suburb of Carrick-on-Suir, 2,108; Cappoquin, 2,145; and part of Clonmel, 151—the other part, with 12,367 inhabitants, being in Tipperary county—total, 12,518; Waterford, 23,339. It is in the Leinster Circuit. The Assizes are held at Waterford. The county is within the military district of Cork; and there are Barrack stations in Dungarvan and Waterford. The net annual value of property rated to the poor in the county, is £292,311; and the amount of property valued under 6 and 7 Wm. IV., cap. 84, is £352,680, including the city.

The harbour of Waterford is formed by the channel of the Suir, from the city to its confluence with the Barrow, and from thence by the joint estuary of these rivers to the sea, a distance of 15 miles, the entrance 2½ miles wide, which is well lighted by a bright fixed light on Hook Tower, 139 feet above the sea, and by a red light on Dunmore pier, 46 feet high, and two leading lights at Duncannon. The superintendence of the port is vested in 24 Commissioners appointed by the Corporation and Chamber of Commerce. It has a harbour master, water-bailiff, pilot master, and 43 pilots, and a steam dredge of 24 horse power is in operation, and raises 300 tons of mud a day. Vessels of 300 tons can discharge at the quays, which are described (by the Tidal Harbour Commissioners in 1846) as the "finest range in the United Kingdom," extending 1,200 yards in length and 40 yards wide, with convenient floating stages that rise and fall with the tide. The navigation is continued in the Suir, by barges, to Clonmel, and in the Barrow by sailing vessels to New Ross, and thence by barges up that river to Athy, and up the Nore to Inistiogue. Within Wexford Harbour are the islets of Beg-Errin and Great Island. The surface is hilly, rising into the ridge of Mount Leinster and Blackstairs on the N.W., and declining into a level peninsula to the S.E. The Slaney, navigable for barges to Enniscorthy, passes through the county. The Barrow, navigable for large vessels to New Ross, and for barges to Athy, skirts it on the W. The occupations are mostly agricultural; dairies are numerous; the chief crops, oats, barley, and potatoes, with beans in Forth and Bargo, which are inhabited by a colony of Welsh settled there on the first landing of the English; much round fish is taken on the coast.

The county is divided into 10 baronies—Ballagh Keen N. and S., Bantry, Bargo, Forth, Gorey, Scarawals, Shelburne, and Shelmaliere E. and W., and contains 144 parishes. It is in Fermis diocese, with a small portion in that of Dublin. The principal towns are, Wexford, population in 1851, 12,471; Enniscorthy, 6,095; Gorey, 2,973; and New Ross, 7,941. WEXFORD BOROUGH

WEXFORD, a maritime town and parliamentary borough in Forth barony, Wexford county, and Leinster province, 93 miles S. from Dublin; lat. 52° 20' N., long. 6° 28' W.; comprising an area of 762 acres; population in 1841, 11,252, inhabiting 1,807 houses; average, 6 persons to a house; population in 1851, 12,471, inhabiting 2,032 houses.

It is situated on the S. bank of the Slaney, where that river, which is crossed here by a wooden bridge 723 feet long, with causeways on each end of 648 and 189 feet, discharges itself into Wexford Harbour. The public buildings are, 2 Protestant Churches, 4 Roman Catholic Chapels, Presbyterian, Independent, and Methodist Meeting-houses, a Roman Catholic college, an endowed school, the County Court House, Prison, Infirmary, and Fever Hospital, Town House, Union Workhouse, a Barrack, and Theatre. Some of the ancient walls of the town are still standing. The manufacture of malt is carried on, and the herring and oyster fisheries, with the salmon fishery of the Slaney, employ many persons. There is 1 large Distillery, and 2 large steam Corn Mills.

The Corporation, styled "The Mayor, Aldermen, and Burgesses of the Town and Borough of Wexford," returns 1 member to Parliament; constituency in 1853, 317. The income of the Borough in 1851 amounted to £371, applied chiefly in the payment of salaries, pensions to municipal officers, and £53 in public works. The Assizes for the county are held in the town. The Corporation holds a Court of Conscience for sums under £2. The Fairs are on 25th Feb., 17th March, 1st May, 3rd and 29th June, 24th Aug., 20th Sept., 1st Nov., and 8th Dec.; Markets on Wednesdays and Saturdays; all toll free.

The harbour is of an oblong shape, formed by the estuary of the Slaney, extending 8 miles from N. to S., or parallel with the coast, and 4 miles wide, comprising an area of 14,000 acres. It is admirably situated for commerce, from its proximity to England, and being at the entrance of the Irish Channel: but those advantages in its present state are not available in consequence of a bar at the mouth, having only 18 feet water at high tides, which limits the traffic. The quays extend 1,000 yards in length, and there is a dockyard and patent slip. The port is under the superintendence of a Board of 104 Commissioners by Act 6 & 7 Vic., cap. 41; it has a harbour master, and pilot master, and 16 pilots. The trade inland, by water, is carried on by the Slaney, which is navigated by barges to Enniscorthy. The income of the port, which arises chiefly from tonnage, ballast, and pilotage dues, in 1845, amounted to £2,487, expended on pilotage establishment, management, ballast, &c., and lighting the harbour. The principal trade is by steamers with Liverpool. The exports are grain, provisions, cattle, poultry, eggs, and vegetables.

WICKLOW COUNTY.

WICKLOW, a maritime county in Leinster province. Boundaries: N., Dublin; E., St. George's Channel; S., Wexford; W., Carlow and Kildare. Greatest length, 40 miles; greatest breadth, 33 miles; comprising an area of 781 square miles, or 500,178 acres, of which 280,393 are arable, 200,754 uncultivated, 17,600 in plantations, 341 in towns, and 1,090 under water. The coast is mostly precipitous, and dangerous from sand-banks, the N. and S. extremities of which are marked by floating lights; there are also 2 fixed lights on Wicklow Head. The surface is much diversified and highly picturesque, rising in the interior into mountain groups, the highest summit of which is Lugnaquilla, 3,039 feet above high sea level, and intersected by deep and romantic valleys, of which the principal are, Glennmalur, Glen of Imaal, Glen of the Downs, Devil's Glen, and the Vale of Ovoca; it declines to the sea on the E., and to the general level of the country on the W. The principal lakes are, Lough

Tay or Luggelaw, Dan, Bray, and Glendelagh. The Liffey and Slaney rise in the county: the Avonmore or Ovoca flows through it. The sub-soil is granite in the mountain district, and clay-slate on the declivities. The mining operations are very considerable; lead and copper being raised in quantities, the former from 1,300 to 3,800 tons per annum, worth £15 per ton; and the latter, from 10,000 to 12,600 tons per annum, worth from £4 to £5 per ton; and since 1838, the exportation of pyrites from the Ovoca district, chiefly for the extraction of sulphur, reached to 100,000 tons in a year, and affords employment to about 2,000 persons; gold has also been found. The soil is very fertile in the lower tracts, and along the river courses: marl is found in many places. According to the Census of 1851, the total population of the county was 98,978, being a decrease of 27,165. The occupations, excepting the Ovoca district, are almost wholly agricultural; the crops, oats, potatoes, and some wheat; pasturage much attended to; the fisheries neglected; the manufacture of flannels once extensive, now nearly extinct.

The county is divided into 8 baronies—Arklow, Ballinacor N. and S., Newcastle, Rathdown, Shillelagh, and Talbotstown, Lower and Upper, and contains 59 parishes. It is in the dioceses of Dublin and Glendelagh, with portions in those of Leighlin and Ferns. The principal towns are, Arklow, population in 1851, 3,306; Wicklow, 3,141; and part of Bray, 2,126, the remainder, population 1,030, being in Dublin county—total, 3,156. The county returns 2 members to Parliament, constituency in 1853, 3,258. It is in the Leinster Circuit. The Assizes are held at Wicklow. The county is partly within the military district of the Curragh.

It is situate on the acclivity of a hill on the W. side of the estuary of the Blackwater, over which river there is a wooden bridge 1,787 feet long, with a causeway to it of 1,506 feet. Keyes and Ronayne), purchased in 1843, is Youghal, 9,823, weighing 24 tons, 27 cwt.

The Corporation, under the Municipal Act, is extinct, and the paving, lighting, cleansing, and watering of the streets are vested in 21 Commissioners under the Act of 9 Geo. The Fairs are on the first Thursday of every month, and Ascension-day. Markets on Wednesdays and Saturdays; all toll free. The boundaries of the municipal jurisdiction are mostly the Grand and Royal Canals, with some extension on the W. and E.

The police of the city and of the surrounding district is in charge of the Metropolitan Police, consisting of 2 Commissioners, 7 Superintendents, 24 Inspectors, 100 Sergeants, 1,000 Constables, and 20 Supernumeraries. The district under its jurisdiction is arranged in 7 divisions: the Castle, College, Rotunda, Barrack, Donnybrook, Kingstown, and Detective, distinguished from each other by the letters A, B, C, D, E, F, and G. There are 3 divisional offices, 2 in the south and 1 in the north side of the city, in each of which 2 magistrates sit daily for the administration of justice.

The wholesale markets are held in Smithfield, for cattle and hay; in Spitalfields, for bacon, butter, and potatoes; in Kevin-street, for the same commodities, and for hay; in Boot-lane, for fish; in Green-street, for potatoes, fowl, eggs, and fruit.

The mercantile transactions, which were formerly carried on at the Exchange, built for the purpose, have been transferred to the Commercial Buildings, in Dame-street, as being a more convenient site. A Chamber of Commerce was established in 1820, and an Arbitration Court for shipping cases, called the Ouzel Galley, in 1705. The banking business is carried on by the Bank of Ireland, the Hibernian, Provincial, National, and Royal, Joint Stock Banks, and by 3 private banking houses. The Dublin Savings' Bank has branches in Abbey-street and Meath-street, and had 10,198 depositors in November, 1854, with deposits to the amount of £219,019.

The packets to Holyhead and Liverpool start from Kingstown Harbour, which is 6½ miles from the city. The

principal lighthouse of the port is at Poolbeg, on the extremity of the South Wall, and opposite to the great Northern Wall or break-water, between which is the entrance crossing the bar to the harbour and quays; it is a bright light of 26 burners, 63 feet in height. The other harbour lights, are a floating light on the Kish Bank off Dalkey Island, the Bailey of Howth lighthouse, and a light on the extremity of the North Quay Wall. At the entrance to Kingstown harbour there are lighthouses on each pier; that on the E. pier is a revolving light, every half minute, that can be seen 9 miles in clear weather. The total amount of lighthouse duties of the port in 1843 amounted to £10,455, of which £4,722 was for Irish, £2,008 for Northern, and £3,725 for English lights.

Local Taxation of the City of Dublin.—The collection of the local rates for the city is intrusted, under Act of Parliament, to a Collector-General, with a staff of collectors, clerks, &c. The annual cost of collection is fixed, under the Act, at 2½ per cent., which is found sufficient to cover all expenses. Michael Staunton, esq., the Collector-General, publishes annually a statement of his transactions; and from his excellent report of the result of his labours for the year 1855, we take the following summaries:—

The assessments for the four years ending 31st December, 1854, were in round numbers, £676,000, and the receipts £608,000—the latter being about 10 per cent. under the amount assessed. This was the average difference, as, in some instances, the percentage was below, and in other cases above, 10. In the Pipe-water it was 8·75,—that rate affecting, generally, a better class of property than other rates. On the contrary, it was 12·28 in the Improvement Rate, which is assessed on the lowest amount of valuation. The Police average was 9·77 on the whole, but only 2·14 in the rural districts. In the Grand Jury it was 11·66. In the two Unions there was an equality, the North being 11·45, and the South 11·45. The proportion of receipts in the several divisions of the collection, respectively, was as follows in 1855:—

Arran-quay, . . .	10·20	North Dock, . . .	8·35	Merchants'-quay, . . .	25·35	Trinity, . . .	16·14
Inns-quay, . . .	12·24	Rotundo, . . .	6·07	Royal Exchange, . . .	7·00	Usher's-quay, . . .	9·26

North City, . . .	9·15	Mansion House, . . .	4·43	South Dock, . . .	10·69	Rural Districts, . . .	2·14

The striking difference, in a series of years, between the town and country divisions arose, altogether, from the difference existing in the condition of property, both as to value and residence. Changes in tenancy within the borough, arising chiefly from non-payment of rent, exceeded, in 1855, 1,000. A change of residence is unfortunately commonly attended with a loss of the rates.

There was a considerable increase in the number of unoccupied houses in 1855, comparing it with the two or three preceding years.

The expenditure for public buildings, roads, salaries of officers, and public charities, formerly under the control of the Grand Jury, is now vested in the Corporation, to whom the functions of the Paving and Lighting Commissioners have also been transferred. The amount of city Presentments for every fourth year since 1826, and for 1853, 1854, and 1855, is exhibited in the following table:—

1826	£28,702	1834	£34,982	1842	£32,400	1850	£28,776	1854	£40,378

* The Pipe-water rate is charged by a graduated scale, ranging from 5s. to 30s. per house.

Commerce of the Port of Dublin.—The commerce of the Port of Dublin had increased so much towards the close of the last century, that the accommodation afforded in the river for shipping was found insufficient, and Parliament, consequently, granted £45,000 for forming docks on both sides of it. The docks communicating with the Grand Canal, on the south side, were opened in 1796, and St. George's, the latest of the Custom House Docks, in 1821. These latter cover an area of 8 acres, have 16 feet depth of water and 1,200 yards of quays, and are capable of accommodating 40,000 tons of shipping, surrounded by stores capable of containing 8,000 casks of sugar and tobacco, and 20,000 chests of tea, with cellars for 12,000 pipes of wine. The docks on the south side afford commodious wharfrage for 100 sail of merchantmen and colliers, exclusive of that supplied by the river-quays. The formation of the asylum-harbour at Kingstown, then Dunleary, which was commenced in 1817, gave additional effect to the commerce of the port, by the increased protection it afforded to shipping. The improvements made on the bar, in the erection of the great northern wall or break-water, and the steam dredging of the bed of the Liffey by the Ballast Board, by rendering the channel sufficiently deep for the navigation of vessels of 1,400 tons, has also contributed greatly to the same effect.

There were in 1853 belonging to the port, including steamers, 464 vessels, of every size, from 15 to 1,200 tons; the registered burden amounting to 51,770 tons. Most of those vessels were employed in the coasting or cross-channel trade, there having been but 6 or 8 in that of the West Indies, the same number in that of France and the Spanish Peninsula, and 20 or 30 in the North American timber trade. Very laudable exertions are making to establish a respectable foreign import trade; and from the improved business habits of the people, there is every reason to anticipate a result beneficial to the spirited undertakers. Several cargoes of tea from China have been imported, and also importations from Calcutta and the Mauritius. The importations from the West Indies have also increased.

The Lords of the Treasury having decided on the plans for the new packet pier at Kingstown Harbour, the works to carry out the same have been pushed forward during portion of the last year, and are still proceeding, and it is expected that in 1857 a berth for the largest class of steam-boats will be completed.

According to this table the healthiest months were October and November, when the average number of burials was 23.1 per day; so also would September have been a comparative healthy month but for the unusual excess of deaths which occurred in it, especially from epidemic diseases, in 1847 and 1849. July is in about the same proportion, but August is rather in excess.

The month when most burials took place was March, when the average for ten years was twenty-eight per diem. January and February hold the next place as respects the mortality in the metropolis. These results, founded on the most reliable data, confirm, in a remarkable manner, that arrived at by the returns of the deaths of the country at large by seasons. Dividing the year, however, into two portions, the winter and the summer periods, the former consisting of the months of December, January, February, March, April, and May, and the latter of the months of June, July, August, September, October, and November, we find that the average monthly number of burials was, in the winter 813, and the daily average 26.3, while in the summer the monthly mean was 741, or 24.3 per day.

The two last columns in the foregoing table show the monthly and daily mean of the burials for the entire period; and the calculations at foot thereof show the annual monthly and daily averages, which range from 568 per month, and 18.7 burials per day, in the year 1843, to 1,207 burials per month, and 39.7 per day, in the year 1849.

ST. MARK'S OPHTHALMIC HOSPITAL, AND DISPENSARY FOR DISEASES OF THE EYE AND EAR, LINCOLN-PLACE.

MANAGING COMMITTEE.

Sir Edward Borough, bart.	J. R. Stewart, esq.	William Longfield, esq.	Francis Codd, esq.
Vener. Archdeacon Strong	Robert Callwell, esq.	J. O. Bonnell, esq.	W. R. Wilde, esq.
Thomas Hutton, esq.	Very Rev. Dean Meyler	Andrew Armstrong, esq.	

Secretary and Treasurer, William Longfield, esq.—*Attending Surgeon*, W. R. Wilde, esq., F.R.C.S.I., Surgeon Oculist in Ireland in Ordinary to Her Majesty.—*Consulting Physician*, W. Stokes, M.D.—*Consulting Surgeon*, Sir Philip Crampton, bart.—*Resident Assistant*, Mr. Usher.—*Copper*, Mr. Mapleson.

This Institution, which is one of the oldest in the City of Dublin, was established in the year 1745, in Nicholas-street, under the name of "The United Hospital of St. Nicholas and St. Catherine." In 1753 it was removed to Francis-street; but on the establishment of the Meath Hospital and County of Dublin Infirmary its situation in that locality was deemed no longer necessary, and it was accordingly removed to Mark's Parish in 1808, under the name of the "United Hospital of St. Mark and St. Anne."

In January, 1843, its fund, which is now under the control of the Commissioners of Charitable Bequests, was allocated to the purpose for which it was originally intended, and at the end of February, 1844, it was opened as an Ophthalmic Hospital and Dispensary for Diseases of the Eye and Ear. In 1850 it was removed to the present building, which was formerly the School of Medicine in Park-street.

The Hospital is now capable of accommodating twenty in-door patients, and has attached to it a handsome Operating Theatre, and an extensive Dispensary. The in-door patients are visited daily. The Attending Surgeon, Mr. Wilde, delivers a course of Clinical Instruction in the Hospital during the Winter Session.

Each patient attending the Institution, with the exception of a few paupers, pays 6d. per month for medicine and attendance at the Dispensary; which, while it induces a spirit of independence among the humbler classes of society, assists in defraying a portion of the expenses of the establishment.

About 110 patients are received annually into the wards of the Institution; and upwards of 2,000 persons receive advice and medicine at the Dispensary. The Institution is chiefly supported by voluntary contributions, together with a grant from the City of Dublin, the original fund, occasional donations from Bishop Sterne's bequest, a portion of the Parliamentary Grant to the Dublin Hospitals, and the small payments made by patients.

The Dispensary is open on the mornings of Tuesday and Friday, from 9 to 11 o'clock. Operations performed on Wednesdays at 11 o'clock.

Donations and subscriptions will be thankfully received by the Secretary, William Longfield, esq., 19, Harcourt-street; by the Medical Attendant, W. R. Wilde, esq., 1, Merriion-sq., North, or by any of the Committee.

The Institution for the Sons and Orphans of the Irish Clergy having discontinued its operations, the above Society was formed for the purpose of assisting in the education of the Orphans of the Irish Clergy, and of the Sons of those Clergymen whose incomes do not enable them fully to attain that important object.

A preference is given to applications on behalf of Orphans; and the education of the young persons approved of is provided for by their being sent to such schools as the Committee may select, the whole or a part of the sum agreed upon with the master being paid from the funds of the Society, according to the circumstances of each case. Seventeen boys, most of whom are orphans, have been taken under the care of the Society.

Subscriptions will be thankfully received by any Member of the Committee; or by the Treasurers, Messrs. D. La Touche & Co., Castle-street; or by the Rev. RAGGED SCHOOLS, OLD SAVINGS' BANK, LURGAN-STREET.

The object of the Ragged Schools is, to afford to the children of the very poor a Scriptural Education, and thereby induce to habits of industry and self-dependence. For this purpose the school is open each day in the week from ten to three o'clock, P.M., and on Sundays from three until half-past four o'clock, P.M.

The managers finding that several of the children, from the poverty of their parents, came to school without having previously tasted food, and knowing how difficult it is to give attention to instruction when pinched with hunger, have resolved to give to each child attending a piece of bread *every day*; thus, at least, insuring them one meal in the day besides the consolation of knowing that those who were ministering to the mind were equally willing to minister to the wants of the body.

Subscriptions will be thankfully received by Miss Daniel, 30, Lower Baggot-street; Miss Perrin and Miss Kiernan, Dorset Institution, Sackville-st.; Mr. Redmond, Bank, Henry-st.; and Mr. Blood, 4, Gt. Charles-st.

The child of a widow who has married again, is inadmissible.

The orphans adopted by the Society are placed in parishes, in the county of Wicklow, with Protestant nurses of good character and in comfortable circumstances, who are subjected to the superintendence of the parish clergyman, and the inspection of the Committee. All applications on behalf of orphans must be made by memorial, signed by six subscribers, accompanied by certificates of the marriage of the parents, the baptism of the child, and the burial of the deceased parent or parents, also a certificate of the child's mental and bodily soundness—signed, if the child be in Dublin, by one of the medical inspectors of the Society; if in the country, by some respectable medical practitioner. The children of subscribers have a preference.

Elections of orphans take place on the last Thursday in January, March, May, July, September, and November. All memorials should be lodged at the office on or before the first Friday in each of those months.

There are now 412 orphans under the care of the Society and 541 have been apprenticed.

Current Accounts are received on the same principles as those observed by the London Bankers. Every person connected with the establishment signs a Declaration of secrecy as to the accounts of individuals. No Christmas Boxes or other gratuities are allowed to be taken by the Officers of the Bank. The Bank also takes the agency of Joint Stock Banks, Private Bankers, and other parties residing at a distance. Cheques upon penny stamps may be drawn from any place in the United Kingdom.

Parties who are desirous of having Current Accounts, without being under the necessity of keeping a balance, are charged a small commission, proportionate to the amount of their transactions.

Sums of £10 and upwards are received on Deposit, and are re-payable upon demand, without notice. For these sums, Receipts are granted, called Deposit Receipts. These receipts are not transferable, nor can cheques be drawn against them; but when paid, they are endorsed by the Depositor, and returned to the Bank. If the money is withdrawn within a month, no interest is allowed.

Parties may lodge money upon an interest Account who have no Current Account, and those who have Current Accounts may transfer any portion of their Balance to an Interest Account.

CIRCULAR NOTES are issued for the use of Travellers on the Continent, payable at every important place in Europe. These notes are issued without charge, and are cashed abroad free of commission. LIFE DEPARTMENT.

The Directors of this Company, for the purpose of meeting the views of persons desirous of effecting Life Insurances, now offer two distinct modes of obtaining that object.

By one plan, persons may insure for the whole term of life, according to a scale entitling them to participate in a septennial division of two-thirds the net profits, while protected from the risk attaching to mutual insurance.

By the other plan, persons may effect insurance not entitling them to participate in a division of profits, at a reduced scale of premiums.

In addition to an extensive proprietary, and large funded as well as subscribed capital, the Income derived from the Life Branch is accumulated as a fund for the exclusive discharge of Life Policies, combining an extent of security not surpassed by any similar Institution in the empire.

The Bonus may be applied at the option of the Assured, either in augmentation of the sum insured, or in reduction of the Annual Premium.

Or the Company will purchase the addition by a payment in cash.

Twenty days allowed for renewing Life Policies.

Claims paid in three months after proof of death and burial of the deceased shall have been approved of by the Directors. No charge for Stamps on Life Policies.

INSURANCES AGAINST FIRE,

On private houses, and all common risks, at the reduced Rate of One Shilling and Sixpence per cent. per annum.

MARINE INSURANCES

Effectuated at the Current Premiums of the day. Losses and averages adjusted on the most liberal principles of Indemnity, and settled with despatch.

Attendance daily at the Office, from 10 in the morning to 5 o'clock in the afternoon for general business, and a Committee of Directors meet from 2 to 3 o'clock each day for the purpose of deciding on proposals for insurance, before whom persons whose lives are to be insured may appear.

PATRIOTIC ASSURANCE COMPANY OF IRELAND—continued.

In Assurance transactions what ought to be sought beyond everything else by the Assured is absolute security.

The security afforded by this long established Company is unquestionable; while the fact that its Head Office is in Dublin makes prompt attention to proposals and speedy settlement of claims simple matters of course.

The Company's Rates of Premium, both Life and Fire, are exceedingly moderate, and its regulations are liberal. The amount it has paid in satisfaction of claims considerably exceeds £300,000.

Life Department—Progress of Business.

The amount Assured by New Policies for the year ending August, 1856, was nearly thirty per cent. in excess of the amount so assured during the year ending August, 1855, and upwards of ninety-five per cent. in excess of the amount so assured during the year ending August, 1854.

Attention is directed to the Company's New Life Scheme.

Example of Half-credit System applied to a New Scheme Policy.

The first annual payment (including interest) required for a £500 Policy, taken out by a person aged twenty-five, and due at sixty-three, or death, is only £6 4s. 3d.

Loans.

Loans advanced on approved personal security, in conjunction with Life Policies, without Money Bond, or Warrant, being required.

Fire Department.

The estimation in which this Company is held by the Public may be gathered from the fact, that the increase for the year 1855 over the year 1854, in the amount of Fire Insurance duty paid by it to Government on its Irish business, was greater than the increase of duty on the Irish business of all the other Insurance Companies put together. See abstract from Parliamentary Returns in *Post, Magazine, and Insurance Monitor*.

NOTE.—Fire Insurances undertaken at moderate Rates of Premium, and this Company holds itself responsible for damage done by explosion of Gas, when such explosion takes place within buildings on or in which the Company has Insurance.

N.B.—Fire Insurance Policies renewable with other Offices may be transferred to this Company free of expense.

Flour Mills insured on reasonable terms.

Persons effecting Assurances with the ALLIANCE COMPANY, enjoy the following important advantages.
PERFECT SECURITY.—The large invested Capital and the personal responsibility of upwards of One Thousand Shareholders render the security undoubted.

MODERATE PREMIUMS OF ASSURANCE.—The Rates for Life Assurance will be found generally reasonable, and, for the younger Ages, lower than those in use in many of the older and most respectable Offices.

The Premiums for FIRE ASSURANCE are the same as those which are demanded by the first class of Assurance Companies.

PARTICIPATION OF PROFITS BY THE ASSURED, BOTH IN LIFE AND FIRE.—Four-fifths of the declared Profits of the Life Department will be appropriated every Five Years, to the increase of the amounts Assured, or to the reduction of the future Premiums on participating Policies, according to the choice of the Assured.

The PROFITS of the FIRE Department appropriated to the Assured, are distributed at the close of each successive period of Five Years, in the form of a per centage on the Premiums which have been paid.

Parties who obtain the settlement of Losses from Fire are not thereby deprived of their right to participate in the Profits of the Company. Losses by Lightning are made good.

The Company are liable for Losses by EXPLOSION, unless such Explosion should be occasioned by Gunpowder deposited on the Premises, or except in cases specially provided for in the Policy.

LIFE POLICIES ARE NOT LIABLE TO FORFEITURE by the Lives Assured proceeding beyond the prescribed limits without the cognizance of the holders of such Policies.

The extra charges for the residence of Lives Assured beyond the European limits have been materially reduced.

THE DIRECTORS GRANT LOANS on the sole security of the Company's Life Policies, if unencumbered, to nearly the full extent of their value, provided such value will justify an advance of not less than £50.

The cost of the Stamps upon Life Policies is borne by the Company, and NO CHARGE whatever is incurred by the Assured beyond the premium; fees on application to Medical Referees being paid by the Company.

LIFE DEPARTMENT.

This Company is established on the equitable system by which the Assured become entitled to an addition to their Policies every Fifth year. This Bonus may be applied to a reduction of the future Annual Premiums at the option of the party.

In all cases of Life Assurance the utmost secrecy and despatch is observed; and a liberal per centage is allowed to Solicitors or Agents doing business at this Office.

FIRE DEPARTMENT.

Manufactories, Distilleries, Mills, and all other Buildings, with the property therein, are Insured by this Company from loss or damage by Fire, on the most liberal terms, and all goods or merchandize in the Queen's Stores or Public Cranes; also, Ships in Docks or Harbour.

Farming Stock of every description Insured Free of Duty.

* The great importance of Insurance, as well against the casualty of Life as loss by Fire, is so generally admitted, it becomes a matter of surprise, that individuals can be found so remiss as not to take advantage of the Security which is afforded by the payment of a comparatively small annual sum.

LIFE.

THIS INSTITUTION adopts both the **Proprietary** and **Mutual** systems of Life Assurance, and the Policy-holders IN BOTH BRANCHES are fully protected by the *large Subscribed Capital* of the Company. The rates of Premium are reduced in all cases as far as is compatible with stability, and especially favourable for *young and middle-aged lives*.

In the **Mutual Branch** of this Institution, the Policy Holders are entitled to the *Entire Profits* of the Branch, thus enjoying all the advantages of a strictly Mutual Assurance Society, together with the security of an ample Proprietary Capital.

In the **Proprietary Branch**, Assurances may be effected in a great variety of ways, to suit the circumstances and convenience of the Assured. Among others, where the Policy is made payable "On the Assured attaining *Sixty years* of age, or at *Death*, if that event should happen previously," is particularly deserving of attention.

FIRE.

Premiums for Assurance against FIRE are charged at the usual moderate rates, with a reduction of £10 per cent. on the RESIDENCES AND FURNITURE OF CLERGYMEN, and the BUILDINGS AND CONTENTS of CHURCHES and CHURCH SCHOOLS.

Prospectuses, the necessary Forms, and every requisite information for effecting Assurances, may be obtained on application at the Head Office, as above, or to the undermentioned Agent of the Company.

British Commercial Life Insurance Company,

ESTABLISHED A.D. 1820.

CAPITAL, SIX HUNDRED THOUSAND POUNDS,

LARGELY INCREASED BY ACCUMULATIONS.

EMPOWERED BY ACT OF PARLIAMENT.

35, Cornhill, London; 110, Grafton-street, Dublin; and 65, Wall-street, New York.

The **BRITISH COMMERCIAL** was established upwards of **THIRTY-FIVE YEARS** ago, under the special patronage of **HIS ROYAL HIGHNESS THE LATE DUKE OF SUSSEX**, since which time it has paid in claims nearly **ONE MILLION POUNDS STERLING**.

The Premiums for Insurance charged by the British Commercial are on the most moderate scale consistent with safety, notwithstanding which the great prosperity of the institution has enabled it to divide very large bonuses amongst the insured.

The first division of profits was not made until the year 1835, that is fifteen years after the foundation of the Company, thus evidencing the care and prudence of the Directors in husbanding the accumulations, and making the stability and permanent prosperity of the institution a first consideration, instead of seeking to allure (as is now too frequently the case) by declaring immediate annual bonuses before sufficient time can elapse to make a really correct estimate.

The Bonuses of the British Commercial are declared every seven years, and they have been greater and greater at each periodical division, viz:—

In 1835 the Bonus was	£26	7s.	10d.	per Cent. on the Premiums paid.
In 1841	£30	14s.	0d.	" " "
In 1847	£34	0s.	0d.	" " "
In 1854	£35	0s.	0d.	" " "

On Insurances for the whole of Life, one-half of the Premiums may remain unpaid for the first seven years, as a loan at interest, and may then be paid, or remain as a loan, at the option of the insurer.

Age admitted on all Policies when issued on proof of date of birth.

Lives assured may reside in any part of Europe without extra premium.

Naval, Military, Climate, and Special Risks of all kinds, accepted at commensurate premiums.

Upon Policies for the whole of Life, after payment of three premiums, Loans are made in proportion to the value of the policies.

The full value is given for policies when discontinued.

Insurances are effected on all lives up to the age of 75 years, and to the extent of £10,000 on any one life. Endowments for Children and Widows are granted, and every description of Insurance business transacted, the rates for which, and full particulars, may be learned from the Company's Agents in all the principal towns in Ireland.

In fine, the **British Commercial** offers to Insurers the security and all the advantages of an old and prosperous Office, with every real improvement of modern practice. And in addition, will grant Loans of from £100 to £500 to parties henceforth effecting Insurances through the **Dublin Agency**. The amount of which Loans will be received back by half-yearly or quarterly instalments, at the option of the borrower.

NEW AND IMPORTANT FEATURES IN LIFE ASSURANCE.

Half Credit Rates of Premium without Security.

The success of this Institution has enabled the Directors to present to the Public the following Table of HALF Rates of Premium, which have been computed on the principle of affording the *greatest possible accommodation to Policy-holders*, by enabling them to effect Assurances—either on their own lives, or the lives of others—ON PAYMENT OF A CONSIDERABLY LESS AMOUNT OF PREMIUM, DURING THE FIRST SEVEN YEARS, THAN WOULD BE REQUIRED IN ANY OTHER OFFICE.

The extraordinary advantages thus afforded by means of the HALF-CREDIT System in not requiring, under any circumstances, the outlay of a larger sum of money than is absolutely necessary, in order to secure the amount assured, are equally available to cases of parties effecting assurances on their own lives; more especially in cases where the payment of the full amount of premium may be inconvenient at an early period of life, and the parties have the prospect of increased means thereafter.

BRITANNIA LIFE ASSURANCE COMPANY—Continued.

GREAT ADVANTAGES OF THIS INSTITUTION.

Policies issued free of Stamp Duty.

The following important *improvements* on the ordinary system of Life Assurance have been adopted by the *Britannia Company*, and are recommended to the particular attention of the Public—

A TABLE OF INCREASING RATES OF PREMIUM, especially useful to Creditors for securing Loans or Debts.

HALF CREDIT RATES, whereby half the Premium only is payable during the first seven years.

SUM ASSURED PAYABLE AT SIXTY, OR AT DEATH if occurring previously.

Age of the Assured in every case admitted in the Policy. *

All Claims payable in Three Months after proof of death, or PROMPT UNDER DISCOUNT.

Medical Attendants remunerated by the Company in all cases for their reports.

No charge made for STAMP DUTY, Policies or Admission Fees.

Premiums may be paid Half-yearly or Quarterly, and payment may be made to terminate after five, ten, or any other number of years required.

A Board of Directors in attendance daily at Two o'clock.

Thirty days allowed for renewal of Policies.

LAPSED POLICIES revived within twelve months, on the production of satisfactory evidence as to health and habits of life, without payment of any Fine, usually required by other Companies.

WHOLE WORLD POLICIES granted, entitling the Assured to travel to or reside in any part of the World, without special permission of the Company, thus affording complete protection to Policy Holders.

No charge for residence in British North America, or in the United States of America, not south of Washington.

In Cases of Suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without reduction; if the Policy be not so assigned, the full amount of Premiums received thereon (if not greater than the sum assured), will be returned to the Family of the Assured.

LOANS TO POLICY HOLDERS.—The Directors will grant Loans at current Rate of Interest, in all cases where Policies have acquired an official value not under £50.

The marked testimony in favour of Life Assurance evinced by the Legislature, in the exemption from Income Tax of the Premiums paid for the benefit of a surviving family is deserving the most serious attention of all classes, not only on account of the actual saving, but also on account of the high estimation in which it proves that the system of Life Assurance generally is held by the Government of the Country.

The Subscribers, on behalf of the Directors and themselves personally, feel called upon to avail themselves of this opportunity to offer to their numerous friends and the Public generally, their sincere acknowledgments for the very extensive patronage so long enjoyed by the BRITANNIA LIFE ASSURANCE COMPANY, evinced by the circumstance of over ELEVEN THOUSAND TWO HUNDRED POLICIES having been already issued.

They avail themselves of this opportunity to remind the Public of the vast Social Importance of Life Assurance, and that the great boon to the *Assuring Classes*, in the exemption from Income Tax of the PREMIUMS PAID, and STAMP DUTIES, plainly demonstrate, that not only is the Legislature desirous of offering as few impediments as possible to the savings of the PROVIDENT CLASSES, but that it is also decidedly of opinion that in no way can such savings be more beneficially or more properly applied by the HEADS OF FAMILIES than in effecting Assurance on their own lives.

SECURITY COMBINED WITH ADVANTAGE.

The **Sum Assured** by the Policies now in existence, amounts to **£2,111,500.**

The **Funds** of the Company invested in first-class Securities amount to **£779,000.**

The **Annual Income** of the Company is upwards of **£101,500.**

The **Bonuses** already added to Policies amount to **£320,180**; the Bonuses at the last division of Profits in 1853 varied, according to age, from **£1 to £2 10s.** per cent. **per annum** on the Sum Assured.

The **Policies** are issued **free from expense**, the Policy Stamp and Medical Fees being paid by the Company, and Entrance Money is not charged.

The Directors refer with satisfaction to the fact, that they have paid to the representatives of deceased members the large sum of **£908,000**, and that they have not in a single instance been engaged in litigation with respect to the payment of the claims. The Company's Policies have therefore been, practically, for Thirty-one years, **indisputable**, a fact which will no doubt be regarded by the Public and the Assured as much more valuable than any promise as to the future which can be held out by this or any other Office.

Credit given for first seven years, for **one-third** of the Premium upon Whole Term Policies.

Credit given for first five years, for **one-half** of the Premium upon Whole Term Policies.

A **Policy** may be EXCHANGED by the Substitution of a healthy and approved life, the new Policy being entitled to advantages, by way of Bonus or otherwise, EQUIVALENT TO those attaching to the original Policy.

Thirteen months are allowed for reviving, on reasonable terms, any Policy which may have become forfeited by the omission to pay the Premium.

To protect the interest of the Assured in his Policy, the Directors will issue, at any time after he has paid **Three Premiums**, a **Free Policy**, for a sum proportionate to the value of the premiums he has paid; so that, if he should be no longer able to continue his payments, he will receive a Policy for which no further ordinary premium will be required, thus enabling him to secure a **certain provision** for his family at his death, and to carry out the intention he had in view, when he originally assured, as far as his circumstances will permit.

Example:—A Person who Assures for £1000 at the age of 20, and at the end of 10 years desires to discontinue his Policy, he having then paid Premiums to the amount of **£164 3s. 4d.**, will receive in lieu thereof a Free Policy for **£199** payable at his Death.

Endowment Assurances effected, whereby the sum assured will be paid to the party himself if he live to a certain age, or to his representatives if he die before attaining the age fixed on. By this means a provision is made for his old age, and also for his family at his death.

Farmers, Grazers, and others holding **Leases** depending upon lives, can by a small annual payment secure themselves from loss, by insuring a sum payable when the life or lives shall fall, with which they can renew their Lease, or repay themselves the money they have expended on their farms, &c.

A **Liberal Commission** allowed to Solicitors on proposals lodged at the Dublin Office.

Forms of Proposal, and every information may be obtained on application to the Secretary or Agents.

LIFE DEPARTMENT.

(Office Hours, 10 to 4.)

Assurances may be effected with this Company, either at a moderate Premium with liberal participation of Profits, or at a low Premium without such participation.

Assurances effected under the Participating Scale, after the eleventh day of October, 1850, will be entitled to FOUR-FIFTHS OF THE PROFIT to be derived from all Assurances effected after that date, as the same may be declared from time to time at the periodical divisions of Profit, provided such Policies shall have subsisted at least one year at the Christmas preceding such Division.

The future DIVISIONS OF PROFIT will be made QUINQUENNIALY, and the first of such Divisions was declared in June, 1855.

At each period of Division the Assured will have the option of receiving their respective Shares of Profit in ready money, or of applying the same to increase the sums assured by their respective Policies, or to reduce the Premiums payable thereon.

At the several past Divisions of Profit made by this Company, the Reversionary Bonuses added to the Policies from one-half the Profits amounted, on an average of the different ages, to about One per Cent. per annum on the sums insured, and the Total Bonuses added at the five Divisions exceeded £913,000.

Persons who are not in such sound health as would enable them to Insure their Lives at the Tabular Premiums, may be insured at such extra Premium as the Directors may deem adequate to the increased risk thereby incurred.

LOANS granted on Life Policies to the extent of their values, provided such Policies shall have been effected a sufficient time to have attained in each case a value not under £50.

Every renewable Policy is held in force during the 30 days allowed for its renewal, provided the Premium shall be paid within that period.

A Policy taken out on Own Life is held to be valid in case of Death, under the circumstances and to the extent mentioned in Condition 4.

Age admitted in all cases upon proof being furnished satisfactory to the Directors.

Appearances also taken by appointed Agents of the Company in most parts of the United Kingdom and Continent of Europe, without Fine for non-appearance in London.

Written Notices of the Assignment of Policies are received and registered, and upon the written application of the Assured, or party interested in the Policy, information will be given in writing whether the Office has or has not had notice of Assignment.

No additional premium required from Naval and Military Men, unless when called into actual service.

No additional premium required for passing by Sea from one part of Europe to another, in accordance with Condition 8.

SAMUEL INGALL, Esq., Actuary.

A Scale of Premiums on Insurances for the whole term of life has recently been adopted, by which a material reduction has been made at all ages below 50 years.

Four-fifths, or 80 per Cent. of the Profits are assigned to Policies every fifth year; and may be applied to increase the sum insured—to an immediate payment in Cash—or to the reduction and ultimate extinction of future Premiums.

BONUS TABLE, showing the ADDITIONS made to Policies of £1,000 each, entitled to participate in the quinquennial appropriation of profits, according to the dates when the Insurances were effected, for every fifth year, from 31st January, 1821, to 1856, when the last Bonus was declared:—

Date of Insurance.	Premiums Paid.	Amount of Additions to February 1, 1851.	Addition made as on February 1, 1856.	Sum payable after Death.
		£ s. d.	£ s. d.	£ s. d.
1820	36	523 16 0	114 5 0	1,638 1 0
1825	30	382 14 0	103 14 0	1,486 8 0
1830	26	241 12 0	93 2 0	1,334 14 0
1835	21	185 3 0	88 17 0	1,274 0 0
1840	16	128 15 0	84 13 0	1,213 8 0
1845	11	65 15 0	79 18 0	1,145 13 0
1850	6	10 0 0	75 15 0	1,085 15 0
1855	1	—	15 0 0	1,015 0 0

The ADDITIONS for intermediate years are nearly in proportion to the duration of the Insurances; and on Policies effected in the early periods are sufficient to extinguish the future Annual Premium.

One-third of the Premium on Insurances of £500 and upwards, for the whole term of life, may remain as a debt upon the Policy, to be paid off at convenience, by which means £1,500 may be insured for the present outlay otherwise required for £1,000.

LOANS.—The Directors will lend sums of £50 and upwards, on the security of Policies effected with this Company for the whole term of life, when they have acquired an adequate value.

SECURITY.—Those who effect Insurances with this Company are protected by its large Subscribed Capital from the risk incurred by members of Mutual Societies.

Insurances, without participation in profits, may be effected at reduced rates.

Prospectuses and further information may be had at the Chief Office as above; at the Branch Office, No. 16, Pall Mall; or of the Agents in Town and Country.

LONDON UNION ASSURANCE COMPANY,

(Instituted in the reign of Queen Anne, A.D. 1714.)

CORNHILL, LONDON; COLLEGE-GREEN, DUBLIN; AND GRONENGEN-ST., HAMBURGH.

The London Union Society was established in 1714, and for nearly a century and a half has fulfilled all its engagements with honour and credit.

It has, therefore, the recommendation of stability, liberality, and tried experience.

The accumulated invested capital now amounts to upwards of ONE MILLION sterling.

LIFE DEPARTMENT.

The variety of cases in which, by means of Life Assurance, income is made to supply the place of capital, is becoming more generally understood, and must readily suggest themselves to all who perceive that the person who applies a part of his annual income to an insurance on his life, instead of lodging it in a bank, or applying it to his trade, for the purpose of accumulation, converts at once the *prospective savings* of a long course of years into *testamentary capital* for the benefit of his family; and thus effects immediately what (without the aid of Life Insurance) he could not accomplish, unless he should happen to attain a period of life which there are, at best, many chances against his ever reaching.

Insurances for the whole Life, either on their own lives or that of others, will participate in the profits, by additions being made to each Policy, on the principles so beneficially practised, till lately, at the *Equitable Office*. Thus in the case of a life of ordinary duration, experience has shown that Policies may, by the plan of the Company, be very considerably increased without any addition of premium being required; while in the event of a person prematurely cut off in the first year of his assuring, the benefit (enormous and disproportionate as it is) of a fixed sum to his family or assignees is secured beyond the risk of reduction.

The total Bonus on Policies effected in Ireland for £1,000, of the longest duration, amounts to £360, and varies in proportion to the amount and date of the Insurances.

Insurances without Profits may be effected in the Life Department at Rates considerably reduced.

EXTENDED SYSTEM OF LIFE INSURANCE in three different modes:—

- 1st.—A lower scale of Premium for the first few years, to be increased afterwards for the remainder of Life.
- 2nd.—Two-thirds only of the Premium required to be paid; the balance to be deducted with Interest when the claim is payable, or may be paid previously if desired.
- 3rd.—A moderate increase of Premium for the first few years, and afterwards to be reduced for the remainder of Life.

The Premiums for Insurance for One and Seven Years are reduced generally 20 per cent., and will be found, on comparison, to be lower than most other offices.

Thus, important benefits, both immediate and remote, will result to persons insuring with the LONDON UNION ASSURANCE; and amidst the canvass which is made to procure business, the public are requested not to be unmindful of their own interest.

FIRE DEPARTMENT.

The beneficial effects of Insurance against Loss by Fire are no less obvious and important, than the consequences of neglecting to insure are ruinous and dreadful—every enjoyment of the present moment, and all the prospects of the future, being frequently destroyed by the event of a casual conflagration. No person would insure his house against Fire, if prudence could guard it against accident; and yet, whatever the chance may be against any one house being burnt down, no thinking man would remain uninsured at the present low rates.

The Insurer has the opportunity of making either an Annual or Septennial Insurance; or Insurances for any shorter period, as may best suit his convenience, on as favourable terms as any other Office.

Septennial Insurers are to deposit only Six Years' Premium, and the Insured are paid a dividend of the profits at the close of the seventh year.

Losses occasioned by lightning are made good.

All reasonable Charges attending the removal of Goods insured, in time of danger, will be repaid.

A body of Firemen and powerful Engine, whose services have been acknowledged, are in constant readiness to attend Fires, at the Company's Engine House in Crown-alley, near of the Commercial Buildings.

By the Annual Report of 1853, it appeared that the number of Policies then in force was 3,434, insuring £1,337,500, and yielding an Income of £55,207.

At the FIFTEENTH ANNUAL MEETING, held on the 27th NOVEMBER, 1856, it was shown that on the 30th June last,—

The Number of Policies in force was	5,738
The Amount Insured was	£2,752,197 7s. 2d.
The Annual Income was	£118,557 16s. 2d.

Two Bonuses have been declared (in 1848 and 1853), adding nearly 2 per cent. per annum on the average to sums assured, and by which a Policy of £1,000, issued in 1842 on a healthy life, is now increased to £1,260.

Since the last DIVISION OF PROFITS in 1853, the accumulated Funds have increased by more than £105,000, offering considerable advantages to present Assurers.

Profits divided every five years: next division in 1858.

The Society has paid claims on 651 Policies, assuring £254,008 since its establishment in 1841.

Premiums for India have been computed on the actual results of European Life in that Colony, extending over the whole period of the East India Company's experience, and will be found generally lower than those of other Companies, and especially favourable for military men.

Civil Rates charged on the Lives of Military Officers holding civil appointments, for the term of such appointments.

Immediate reduction to English rates on the Assured returning to Europe permanently to reside.

Policies may be made payable either in London or in India, at the rate of Two Shillings sterling per Company's Rupee.

GENERAL ADVANTAGES.

Assurances are effected at home or abroad on healthy lives at as moderate rates as the most recent data will allow.

No extra Premium is required on Healthy Lives in the Army or Navy unless in actual service.

The Policies issued by this Society give greater facilities to parties going to or residing in foreign climates, than those of most other Companies.

INVALID LIVES ASSURED on scientifically-constructed Tables based on extensive data; and a reduction in the Premium is made when the causes for an increased Rate of Premium have ceased.

Policies issued free of stamp-duty and every other charge, except the Premium.

Medical men are paid a Guinea for each report, and receive the same advantages as Solicitors for any business they may introduce.

Notices of Assignment are registered and acknowledged without charge.

Assurers incur no risk of Co-partnership, as in Mutual Offices, but are free from all liability.

A CAPITAL OF HALF-A-MILLION STERLING, fully subscribed (in addition to a large Income and accumulated Assets), affords a complete guarantee for the fulfilment of the Company's engagements.

SELECT ASSURANCES.—With the view of rendering Policies of Assurance ultimately indisputable and subject to no condition whatever, excepting payment of the stipulated Premium, the Directors have determined to take the lead of the English Offices, and be the first of them to constitute classes of "SELECT ASSURANCES," to which all persons assured by Policies which have continued five years in force shall be admissible on special application, and at the discretion of the Court of Directors.

EXTENSION OF LIMITS FOR FOREIGN RESIDENCE AND TRAVEL.

All persons whose Lives are assured by this Company may, in time of peace, reside in ANY PART OF EUROPE, THE COLONIES OF BRITISH NORTH AMERICA, THE CAPE OF GOOD HOPE, NEW ZEALAND, NEW SOUTH WALES, AND AUSTRALIA; and also reside in ANY PART OF THE WORLD NORTH OF 38 DEGREES OF NORTH LATITUDE (California alone excepted), AND SOUTH OF 30 DEGREES OF SOUTH LATITUDE: And, provided they be not seafaring men by profession, may, in time of peace, travel to and fro within the specified limits WITHOUT EXTRA CHARGE or licence previously obtained.

STAMP DUTIES.—The cost of Stamps on Policies will in future be defrayed by the Company.

INCOME TAX.—By the Act of 16th and 17th Victoria, cap. 91, and the 54th section of the Income Tax Act, the Premiums payable by any person to this Company for an assurance on his own life, or the life of his wife, are declared free from Income Tax, provided such Premiums do not exceed one-sixth of his whole income.

The following important Benefits are also afforded by this Company:

- 1st.—A GUARANTEED RETURN will be made at any time for the surrender of existing *whole term* Policies, effected by even rates, of FORTY PER CENT. of the amount of ordinary premiums received. This is an advantage which it is believed has not hitherto been afforded by any other Assurance Company.
- 2nd.—A person desirous of surrendering his Policy may receive, instead of a payment in cash, a new Policy for an equivalent sum, not subject to further payment of Premium.
- 3rd.—Credit given for *one-third* of the Premiums upon *whole term* Policies.
- 4th.—Notices of assignments received and registered, and acknowledged if required.

THIS Institution is founded on principles of public utility; and the punctuality of its engagements is guaranteed by a wealthy body of Proprietors by whom an ample Capital has been subscribed; and the Directors, with confidence derived from its eminent success, invite public attention to the important benefits it offers to the public, from the liberal and accommodating System of Business which forms its characteristic.

FIRE DEPARTMENT.

☛ Insurances may be effected by Special Agreement on Mills, Manufactories, Distilleries, and such like, at Current Rates. Farming Stock insured free of Duty.

☛ Persons Insured for Seven Years at Once, are allowed an Abatement of One Year's Charge, both of Premium and Duty.

☛ TRANSFERS OF POLICIES FROM OTHER OFFICES EFFECTED WITH DESPATCH, AND NO CHARGE FOR STAMPS OR POLICIES.

The beneficial effects of Insurance against loss by Fire are no less obvious and important than the consequences of neglecting such a precaution are oftentimes ruinous. How often are the enjoyments of the present, and all the prospects of the future, destroyed by the event of a casual conflagration, which no man, however prudent, can be said to avert, while he is exposed to the carelessness and neglect of others. When all these consequences can be guarded against by an annual outlay so small as to be within the reach of all, no thinking man would remain uninsured.

Prospectuses and all the necessary Forms for effecting Fire Assurances may be had GRATIS; and Assurances effected in all parts of the Kingdom with expedition and accuracy, on application personally, or by Letter, to the undersigned.

BANKING DEPARTMENT.

The investment of money with this Association secures equal advantages to the savings of the provident, and the capital of the affluent, and affords to both the means of realising the highest rate of interest yielded by first-class securities, in which alone the funds are employed.

The constant demand for advances upon securities of that peculiar class which are offered almost exclusively to Life Assurance Companies, such as Reversions, Life Interests, &c., enables the Board of Management to employ capital on more advantageous terms, and at higher rates of interest than could otherwise, with equal safety, be obtained.

The present rate of interest is *five per cent. per annum*, and this rate will continue to be paid so long as the Assurance Department finds the same safe and profitable employment for money.

Interest payable half-yearly, in January and July.

Money intended for investment is received daily, between the hours of 10 and 4 o'clock, at the Offices of the Association.

ASSURANCE DEPARTMENT.

MUTUAL ASSURANCE.

Assurances may be effected from £50 to £10,000 on a single life.

Entire profits belong to the assured, and divided annually.

Credit for half the amount of the first five annual premiums.

Medical men remunerated for their reports.

Liberty to travel, and foreign residence greatly extended.

NON-PARTICIPATING ASSURANCES.

Assurances may be effected on the NON-PARTICIPATING PRINCIPLE, at very low rates of premium, payable in a variety of ways, to suit the circumstances and convenience of different classes of assureds.

The tables for Immediate, Reversionary, and Deferred Annuities are particularly deserving of attention, whether regarded as a means of providing for a particular individual or as a resource against the casualties of age and the uncertainties of health and fortune.

In order to procure perfect independence of action, the BANK OF LONDON AND NATIONAL PROVINCIAL INSURANCE ASSOCIATION is conducted upon its own risk, and with a separate Direction and Management; but to secure and retain the advantages of the Bank connexion, six Directors of the Bank occupy seats on the Board of the Association. On inquiry it will be ascertained that the Rate of Insurance, both Fire and Life, are proportionally lower than other Offices.

FIRE, LIFE, AND MARINE ASSURANCES

may be effected with this Corporation on the most advantageous terms.

The persons assured incur NO MUTUAL LIABILITY as Partners, nor have they to depend upon any uncertain Fund; the Capital Stock of the Corporation affording unquestionable Security for the fulfilment of its engagements.

FIRE DEPARTMENT.

No charge is made for the Policy if the Annual Premium thereon amounts to Six Shillings or upwards.

Policies may be taken out in special cases for less than a year.

Persons taking out Policies for Seven years at once are allowed an Abatement equal to One Year's Charge, both in Premium and Duty.

Losses by Fire occasioned by LIGHTNING are made good; and all payments by the Corporation, whether in London or through Agents, are made without deduction of any kind.

GAS.—The Corporation holds itself responsible under all its Policies for damage done by Explosion of Gas.

LIFE DEPARTMENT.

Assurances may be effected with participation in profits by way of Bonus, or at lower Premiums without such participation.

The following Table shows the large BONUSES declared up to the 31st December, 1855, on Policies of Fourteen years' standing, for the sum of £1000 each:—

Age when Assured.	Sum Assured.	Bonus Added.	Per Cent. per Annum on the sum Assured.	Per Cent. on the Premium paid.	Age when Assured.	Sum Assured.	Bonus Added.	Per Cent. per Annum on the sum Assured.	Per Cent. on the Premium paid.
25	£ 1000	£ 185	1.32	57.6	50	£ 1000	£ 244	1.74	38.2
30	1000	189	1.35	52.3	55	1000	267	1.91	35.2

40	1000	206	1.47	44.4	65	1000	351	2.51	29.6
45	1000	221	1.58	41.0	70	1000	456	3.26	29.0

It is believed that no other old established company, affording to the Irish public the accommodation of local agencies, has maintained during the same period a rate of Bonus equal to the above.

Divisions of Profit will take place EVERY FIVE YEARS.

The Corporation bear the cost of Policy Stamps and Medical Fees. The Assured therefore are subject to no expense but the Premium. No extra charge is made for service in the Militia or Yeomanry within the United Kingdom.

The expenses of Management, being divided between the different branches, are spread over a larger amount of business than that transacted by any other Office. The charge upon each individual Policy is consequently reduced to a sum so small as materially to enhance the expectation of future Bonus.

LOANS are granted on unencumbered Policies to the full extent of their values.

The Corporation afford to the Assured all the Advantages of modern practice, with the stability of an Office safely constituted under Royal Charter and Special Acts of Parliament, and tested by the experience of nearly a Century and a half.

SPECIAL NOTICE.

An assurance may now be effected for any sum not exceeding £15,000 on the same Life. In this arrangement the Directors have in view the convenience of persons who desire to insure for large sums, but who object to the trouble of appearance and medical examination at numerous offices.

THERE IS BUT ONE OLDER LIFE OFFICE IN EXISTENCE.

ANNUITIES are granted; and MARINE ASSURANCES effected at current rates.

Prospectuses with further details may be had on application.

The City Article of the LONDON TIMES of the 24th July last, states that the transactions of the Royal Insurance Company "appear to have been of a perfectly satisfactory character." It includes the following statements confirmatory of that opinion:—

PREMIUMS.

The Premiums of Nine Offices enumerated are stated to be, ... **£824,924**
Of which the Royal alone amounts to, ... **371,957**
being **82** per cent. of the accumulated Premiums of the remaining Eight Companies.

EXPENDITURE.

The expenditure of Insurance Companies is, at present, attracting the anxious attention of the Public. The statement of *The Times* has elicited the following remarks from a contemporary:—"Here, again, the Royal Insurance Company occupies a position of honourable pre-eminence; for while its expenses of management, spread over a period of three years, have been less than **20** per cent., those of five other offices, extending over an equal time—for we omit those which have been established within three years, or we might make a much stronger case—have varied from **22** to **74** per cent., and in one case have been as high as **111** per cent. on the receipts."

RESOURCES.

In like manner the entire Funds in hand of thirteen offices is quoted, in *The Times*, at **£1,238,688**, including the "Royal," which alone is **£372,394**, and which is, therefore, equal to **43** per Cent. of the accumulated funds of the remaining twelve offices; or, to make the VAST RESOURCES of the Company still more manifest, it may be stated that, putting aside the three largest offices named, (the funds of the greatest of which barely exceeds one-half of those of the "Royal,") the united funds of the remaining ten offices do not equal the funds of this Company.

The favourable position in which this Company is placed in *The Times'* Article would have been even more prominently shown if the experience of other years than those taken had been selected.

As an instance, the following is the result taken from the accounts of the Company for the year 1855:—

Fire Premiums and other receipts, ...	£149,812	13	7
Losses, Expenses, and Dividend, ...	131,674	13	8
Balance as a reserve from one year's transactions alone, ...	18,127	19	11
Funds in hand, without including ample reserve for Life Liabilities, . . upwards of	£400,000	0	0

LIFE.

LARGE BONUS DECLARED 1856,

Amounting to **£2** per Cent. per Annum on the Sum Assured, being, on Ages from Twenty to Forty, **80** per cent. on the Premium.

PERIODS OF DIVISION—EVERY FIVE YEARS.

The accumulated Expenditure of 54 Life Offices enumerated by *The Times* of 12th August last, compared with their amount of Premium and Interest, is stated to be, ... **61** per Cent.
The Expenditure of the Royal Insurance Company is only, ... **13** per Cent.

Life Assurances effected before the end of the year will be entitled to an additional year's Bonus.

Additions to Policies are vested when the Policies have been in existence for Five Years from the date of the risk commencing.

THE STANDARD LIFE ASSURANCE COMPANY—continued.

EXAMPLES OF THE APPLICATION OF THE BONUS.

I. As an Addition to the Sum Assured.

By this method the sum assured, payable at death, is increased, without any alteration in the annual premium paid to the office. Thus—

A Policy opened in 1825 for	£1,000 0 0
received—	
At the Division of Profits in 1835, an addition of	£137 10 0
At the Division in 1840, ...	200 0 0
At the Division in 1845, ...	262 10 0
At the Division in 1850, ...	273 0 0
And at the Division in 1855, ...	279 0 0
Total, ...	1,152 0 0
Making the Sum now assured, ...	£2,152 0 0

In like manner,

A Policy opened in 1839 for	£2,000 0 0
received—	
At the Division of Profits in 1840, an addition of	£50 0 0
At the Division in 1845, ...	175 0 0
At the Division in 1850, ...	252 0 0
And at the Division in 1855, ...	306 0 0
Total, ...	783 0 0
Making the Sum now assured, ...	£2,783 0 0

The additions are in the same proportion for Policies of larger or smaller amount. Policies will receive further additions in 1860, and at every subsequent period of division the lives survive.

II. By Receiving the Amount in Cash.

According to this method, if the person assured does not wish the sum in his policy increased, he may surrender the Bonus, and take its value in cash; that is, instead of the amount being paid with the sum assured at death, such a sum will now be given as the Directors may consider equivalent to it in present value.

In the case of the policy of £1,000 opened before 15th November, 1825, for instance, as quoted above, assuming the party to have assured at the age of 35, and to have attained the age of 65 last birthday, the sum of £665 15s. 2d. would be given for a surrender of the Bonus of £1,152, while the policy will continue to receive its share of profits, at future investigations as if the surrender had not taken place.

The value which would be allowed for the addition of £753 to the Policy of £1,000 opened in 1832, assuming the party to have attained the age of 58 last birthday, would be £333 8s. 1d.; the value of the additions to the £2,000 policy of 1839, assuming the party's age to be 55, is £371 5s. 11d.; and the additions to the policy for £1,500, opened in 1845, would entitle the party assured, assuming his age at his last birthday to be 49, to receive in cash £107 6s. 4d.

III. By Reduction of Annual Payments of Premiums.

FOR THE WHOLE TERM OF LIFE.

A policy was opened with the Company in 1826 for £2,000, on a life then aged 45. The policy has received additions to the extent of £2,190; but the party wishes to get quit of his annual payments, by giving up a portion of his Bonus Additions; on what terms can he do so? He pays an annual premium of £74 15s., and by surrendering £671 18s. 2d. of his Bonus, he will get quit of all future payments, have an addition of £1,518 1s. 10d. to his policy, and will continue to receive further additions at each investigation he may survive.

A person aged 40, who assured in 1830 for £1,000, has received Bonus Additions to the extent of £867. He pays a premium of £32 9s. 2d., but wishes to apply the Bonus in extinction of the annual payment. He can redeem his future premiums by surrendering £502 11s. 8d. of his Bonus, leaving £364 8s. 4d. to be paid along with the sum assured at death, and will receive further additions at each investigation he may survive.

A person aged 55, opened a policy in 1840 for £500, at an annual premium of £26 14s. 7d. The Bonus Additions to this policy, amounting to £173 10s., if surrendered to the Company, will reduce the premium by £15 0s. 9d. annually for life, making the future annual payments £11 13s. 10d.

FOR FIVE YEARS.

A person aged 20, opened a policy in 1825 for £1,000, at a premium of £20 10s. 10d. His Bonus Additions amount to £1,152. By surrendering £224 1s. 10d. of these additions, he gets quit of the payment of his premium for 5 years, the Company being liable, in the event of his death during that period, to pay to his heirs the original sum assured, £1,000, and the balance of the Bonus Additions not surrendered, £927 18s. 2d. This policy is of course entitled to future additions at the end of each period of 5 years the party survives.

A person aged 45, opened a policy for £100, in 1835, with an annual premium of £3 14s. 9d. His Bonuses now amount to £58 4s., and by surrendering £28 2s. 5d. of that sum, he will be relieved from payment of any premium for 5 years.

A person aged 50, assured his life in 1845 for £500, at a premium of £22 2s. 6d. The Bonus on this policy amounts to £37 5s. (the present cash value of which is £46 6s. 3d.), and by surrendering this sum, the annual premium for the next 5 years will be reduced by £10 10s. 1d., making the premium for 5 years £11 12s. 5d., instead of £22 2s. 6d.

This Company, established by Act of Parliament, affords the most perfect Security from an ample Capital, and only requires, when an Insurance is for the whole period of life, one-half of the very moderate Premiums to be paid for the first Five Years after the date of the Policy; the other half may remain, subject to the payment of Interest at five per cent. annually, to be deducted at death, or may be previously paid off at convenience.

On the 1st of July, 1841, the Board of Directors added two per cent. per annum, as a Bonus to those assured on the participating plan from the dates of their Policies, thus appropriating £20 a year as an addition to every Policy for £1,000. And on the 1st of July, 1848, they added 2½ per cent. per annum, appropriating £22 10s. also on every Policy for £1,000.

The advantages held out by this Office comprise *all the benefits* which have been proved by the experience of the system; and parties insuring with the "United Kingdom," can avail themselves of nearly all the favourable results of *Mutual Insurance*, without the responsibility of Co-partnership, as two-thirds of the *Profits* will either be *added periodically to the sum insured*, or applied in *reduction of the future Premiums*; or they may, without participating in the Profits, secure at their death a certain sum at a very low rate of Premium. In either case, the Assured will have the most ample security from the subscribed Capital of the Company.

The attention of the Public is earnestly requested to the annexed scale of Premiums, which will be found *extremely moderate*, particularly on the *younger ages*, and for *short periods*, and the mode of payment **AFFORDS GREATER ACCOMMODATION AND FACILITY THAN HAVE HITHERTO BEEN OFFERED BY ANY OTHER OFFICE.**

Superior accommodation afforded to that of other Companies.

- 1st.—Premiums may be paid quarterly, half-yearly, or annually, as may best suit the convenience of the Assured.
- 2nd.—When an Insurance is for Life, half the Premium may remain unpaid for five years, at interest, to be deducted eventually from the Policy, or be paid off at convenience.
- 3rd.—The principle of an ascending and descending Scale, which has been adopted, is equally applicable to the opulent, and to those of limited incomes.
- 4th.—Policies are granted on very moderate Terms, payable on the death of two, or three parties (as the case may be), so as to render Leasehold Property held upon Lives nearly equal in value to Lands held in perpetuity.

Policies when assigned security to the Lender.

When Insurances are effected by Parties on their own Lives, the Policies may be assigned to others for valuable considerations, as complete securities, for this Company engages to pay the sums insured, *even should the original Assured die by Suicide, Duelling, or sentence of the Law*, so long as the Policy remains so assigned.

Insurances may be effected on parties, *Civil, Naval, or Military*, living in any part of the globe, at very moderate additional Premiums to what would be charged if they resided in Great Britain. The Policies to take effect from the date of the certificates of health, provided the Insurance be effected immediately on their receipts.

Persons afflicted with complaints not attended with immediate danger of Life, may be insured at Premiums proportioned to their peculiar situation.

The attention of the Public is solicited to the moderate Rates charged for deferred Annuities, which are peculiarly adapted for all classes of the community, but more particularly for those *whose existence depends upon their own exertions*, and who, in advanced life, may be rendered nearly, if not wholly, unable to work. A person of the age of twenty-five by paying, annually, 18s. 3d., or at one payment, £14 16s. 10d., may, from this Company, secure an annuity of £10, to commence when he is sixty years of age, and to continue during the remainder of life; or any larger sum, in proportion to his circumstances, may be provided for by the same means.

Persons desirous of purchasing Annuities, are required to furnish Certificates of age and identity, which, on payment of the money, will entitle them to receive an Annuity Bond for whatever sum it may be the pleasure of parties to stipulate.

CONDITIONS for Effecting Assurances on Lives and Survivorships.

I. Policies will not be considered to be in force beyond twenty-one days after the Premiums become due; but should proof be given to the satisfaction of the Directors, that the party or parties whose life or lives hath or have been assured, continue in good health, the Policies may be revived at any period within three calendar months, on the payment of a fine to be fixed by a Board of Directors, not exceeding ten shillings per cent. on the sum assured.

II. All persons assured in this Office, are permitted to pass and re-pass by land, or by sea, in decked vessels, from any part of Europe to another, without payment of additional Premium, or forfeiture of Policy.

III. Assurances made by persons on their own lives, who shall die by duelling, or by their own hands, or the hands of justice, shall remain in force as far as any other person shall have acquired a *bona fide* interest therein, by assignment or by legal or equitable lien. And if any person assured for his own life, and who shall have been so for five years successively, shall die by duelling, his Policy shall remain good for one-half of the sum originally insured. And if any person, assured upon his own life, and who shall have been so for at least five years, shall die by his own hands, and not *jelo de se*, the Directors shall be at liberty, if they shall think proper, to pay, for the benefit of his family, any sum not exceeding what the Company would have paid for the purchase of his interest in the Policy if it had been surrendered to the Company the day previous to his decease, provided that the interest in such Assurance shall be in the assured, or in any Trustee or Trustees for him, or for his Wife or Children, at the time of his decease.

IV. All claimants, upon the decease of any person whose life shall have been Assured by the Company, must, if required, make proof thereof, and give such further information respecting the same as the Directors shall think reasonable.

V. Reasonable proof will also be required of the time of birth, unless that fact shall have been previously established, in which case the same will be admitted by endorsement on the Policy.

VI. The time for payment of claims, accruing by death, is within three calendar months after the proof of the death of the party or parties, upon whose life or lives the Assurance has been effected.

MEMORANDA.

Parties wishing to participate in the Profits of the Office, upon the Ascending, Descending, or Joint Life Scales, will be charged £10 per cent. above the printed Rates.

Insurances may be effected on lives, however far advanced, and the half credit for five years is found particularly convenient on such Insurances. Annuities are granted on very liberal terms.

LIFE ASSURANCES

may be effected for any sum not exceeding £15,000 on the same Life, and up to the age of 75 years; with, or at lower rates without, participation in profits.

The reversionary **BONUS** on participating Policies has averaged nearly 2 per Cent. per Annum on the sum assured, or 48 per Cent. on the Premium paid.

Equivalent reductions have been made in the Annual Premiums payable by those who preferred that form of Bonus.

The position and character maintained by the Corporation during more than a Century and a Quarter (there being but one older Life Office in existence) afford a guarantee that this Bonus has been legitimately declared out of the realized surplus, and not by the system of anticipating future profits, to the prejudice of the future assured.

The future division of Profit will take place at the end of every FIVE YEARS.

The expenses of management, being divided between the different branches, are spread over a larger amount of business than that transacted by any other Office. The charge upon each individual policy is consequently reduced to a sum so small as to account for the magnitude of the bonus which has been declared, and to afford a probability that a similar rate will be maintained at future divisions.

The Premiums are moderate, and fairly adjusted to the risk at the different ages; for example:—

Age.	Annual Premium with Bonus.	Annual Premium without Bonus.	Age.	Annual Premium with Bonus.	Annual Premium without Bonus.
	£ s. d.	£ s. d.		£ s. d.	£ s. d.
20	2 0 11	1 16 6	50	4 11 3	4 4 8
30	2 11 7	2 6 8	60	6 10 7	6 2 3
40	3 6 3	3 0 9	70	11 4 10	10 12 2

The Corporation bears the cost of *Policy Stamps* and *Medical Fees*, and requires no entrance money. The Assured are subject to no expense but the Premium; and under the Income Tax Acts any person who may effect with this Corporation an Assurance on his own life, or on the life of his wife, will be allowed (by the Commissioners) an abatement of Income Tax on the Annual Premium paid thereon. No Extra Charge made for Service in the Militia or Yeomanry within the United Kingdom.

Assurances can be effected for the respective terms of *one, three, five, or seven years*, or for any other term of years required; and the Premium will be received in a *single payment*, or in any other limited number of annual instalments.

Policies granted in a form providing at once for the Assured in old age, or for his Family in case of his premature death.

LOANS may be obtained on the security of Policies to the extent of their official values, and an equitable sum allowed in the event of surrender.

FIRE ASSURANCES

are granted on the most favourable terms; and no charge made for the Policy if the Annual Premium thereon amounts to Six Shillings or upwards. Policies may be taken out for less than a year.

Persons taking out Policies for Seven Years at once, are allowed an *abatement* equal to *one year's charge*, both in Premium and Duty.

Losses by Fire occasioned by **LIGHTNING** are made good; and all payments by the Corporation are made without deduction of any kind.

* * No duty payable on *Farming Stock, Public Hospitals, and Poor-houses*, which are assured at the lowest rates.

The Assured are exempt from liabilities of Partnership, and payment of their claims is guaranteed by a large invested Capital-Stock. They enjoy all the real advantages of modern practice, with the stability of an office safely constituted under Royal Charter and Special Acts of Parliament, and tested by the experience of nearly a Century and a Half.

ANNUITIES are granted, immediate, deferred, or contingent.

Tables of the Premiums, and of the Bonus declared in the Life Department, may be had on application.

This Company holds out to the Assured the great advantage of an option by which they can Assure on the principle of a Proprietary or a Mutual Office. By the latter principle, and on a plan adopted exclusively by this Company, they participate *annually* in the Profits, to the extent of two-thirds, apportioned to the Policy-holders, at their option, either by way of Bonus, addition to the Policy, or in reduction of the Annual Premium. There being a wealthy Proprietary, with a large paid-up Capital, the Assured are relieved of all apprehensions of responsibility.

NO EXTRA CHARGE for residence in Australia, New Zealand, Canada, and United States North of 38° Latitude.

The following is an Abstract of Rates to insure £100 payable at Death.

15	20	25	30	35	40	45	50
£ s. d. 1 9 2	£ s. d. 1 12 11	£ s. d. 1 17 6	£ s. d. 2 3 0	£ s. d. 2 9 1	£ s. d. 2 17 2	£ s. d. 3 6 5	£ s. d. 3 19 8

Assurances are effected on the Participation Principle on a proportionate and very equitably adjusted addition on the above remarkably moderate Premiums; and this Company afford the unusual advantage, that the Bonuses are apportioned annually.

The Company's Policies are declared **INDISPUTABLE**, on any ground whatever, at the expiry of five years from their dates, and the Assured receive a certificate at entry to that effect.

When the party proposing Assurance (not being under the age of 21) can satisfy the Directors that he has, at the time, no intention or prospect of going abroad, he will receive a certificate, at entry, declaring him **EXEMPT**, after the expiry of five years from the date of his Policy, from the payment of **EXTRA PREMIUM** for travelling or residing beyond the limits of Europe, and from the necessity of applying for license so to travel or reside—it being conditioned, however, that if he shall proceed abroad within the first five years from the date of the Assurance, he shall be subject to the Company's usual regulations and rates in respect to Foreign Residence.

The Directors have also to intimate that the usual Fee to the Medical Referee, of a party proposing Assurance, is paid by the Company; also the Stamp Duty.

The Association, founded Eighteen Years ago, has twice received the sanction and approval of Government, after due enquiry into its constitution and the state of its affairs.

The Policy-holders of the Association incur none of the risks of Partnership; they are free from all responsibility; and the Sums assured are guaranteed in any event.

The regulations have been all adopted expressly with the view of reducing the expense of Life Assurance to the lowest scale, consistent with permanent stability. This object has been effected mainly by the system of allocating the profits—the share of each participating holder being handed to him every year (*in money*) at the time of payment of his Annual Premiums. The Annual Premiums are thus reduced to a comparatively small sum. Policy-holders having been for many years required to pay only 13s. per £1 of their Premiums; that is, instead of £20, a payment of only £13 has been required; instead of £10, £6 10s.; and instead of £5, £3 5s. The benefits of this system are afforded by no other Scotch Assurance Office.

The Policy-holders participate in the first Division of Profits after they have been five years on the books, and at every Annual Division thereafter. Until they participate in the Profits they may keep up Policies of £500 and upwards, by payment of only one-half the usual Premiums; the remaining half bearing Interest, and being allowed to remain unpaid so long as the Policy-holders please—(see *Prospectus*). Under this system Policies of £1,000 may be secured at the following payments for the first year:—

Age 30, . . .	£13 2 6	Age 50, . . .	£23 4 8
Age 40, . . .	17 2 2	Age 60, . . .	34 7 9

The rates for Non-participating Assurances have lately been re-adjusted, and reduced, and one-half only of the first five years' premiums need be paid. The following are the first payments under that system for Policies of £1,000:—

Age 30, . . .	£10 13 6	Age 50, . . .	£20 8 8
Age 40, . . .	14 5 3	Age 60, . . .	30 5 6

During the last Five Years alone, there have been upwards of Four Thousand New Entrants, assuring their lives for nearly Two Million Pounds sterling.

WATER POISONED BY LEADEN PIPES.

"The above engraving represents accurately a section of a leaden pipe which was employed for a short time in conveying water from a well on the grounds of Mr. DICK, of Bonchurch, Isle of Wight. The water has cut these deep pits almost through the pipe, and not only upon the portion which we have illustrated, but has formed similar chasins throughout the entire length."—*Expositor*.

POISONED WATER PREVENTABLE

BY THE USE OF

Gutta Percha Tubing.

The Gutta Percha Company have been favoured with the following letter

From Dr. MURRAY, Hull.

"It is impossible to conceive of any thing more injurious or destructive to the health of the community than the use of *leaden pipes* for the conveyance of water. The poisonous salts of lead thereby communicated are most insidious and subtle. I hail with gratitude the substitution of Gutta Percha Tubing. I have had the leaden pipe of my own house removed, and its place supplied with one of Gutta Percha. Nothing can be better. I have also recommended it to others, who have adopted the expedient."

RESISTANCE OF FROST.

The Gutta Percha Company have been favoured with the following letters in reference to the non-conducting property of Gutta Percha Tubing, in the resistance of frost.

From J. ARMSTRONG, Esq., M.D., Gravesend.

"My private house, which was supplied with your Gutta Percha Tubing some five or six years ago, has never required the slightest attention, and previously there was no winter passed that we were not almost deluged in consequence of the bursting of the old leaden pipes."

From HENRY BROWN and SONS, Western Works, 108, Rockingham-street, Sheffield.

"We have now a positive proof of the frost-resisting properties of Gutta Percha Piping. On our premises we have a leaden pipe and a Gutta Percha one lying side by side. The leaden one has been completely frozen up at least ten days, and the Gutta Percha one is still unaffected."

DURABILITY OF GUTTA PERCHA TUBING.

Many inquiries having been made as to the durability of Gutta Percha Tubing, the Gutta Percha Company have pleasure in giving publicity to the following letter

From Sir RAYMOND JARVIS, of Ventnor, Isle of Wight.

(Second Testimonial.)

"In reply to your letter received this morning, respecting the Gutta Percha Tubing for Pump service, I can state with much satisfaction, it answers perfectly. Many builders and other persons have lately examined it, and there is not the least apparent difference since the first laying down, now several years; and I am informed that it is to be adopted generally in the houses that are being erected here."

Every variety of Gutta Percha articles, such as Mill Bands, Tubing, Soles, Goloshes, Sheet, Pump Buckets, Fire Buckets, Bosses, Union Joints, Flasks, Bottles, Bowls, Chamber Vessels, Toilet Trays, Sponge Bags, Curtain Rings, Galvanic Batteries, Talbotype Trays, &c., &c., manufactured by the Gutta Percha Company, and Sold by their Wholesale Dealers in Town and Country.

✠
THE ASSOCIATION
 FOR THE
PROPAGATION OF THE FAITH.

Established in Dublin, 18th September, 1838.

THIS pious and eminently charitable "Institution of the Propagation of the Faith," founded at Lyons, in the year 1822, has rapidly extended itself over the Catholic world. Its object is to assist, by Prayers and Alms, the Catholic Missionaries, who are engaged in preaching the Gospel, but especially those among distant and idolatrous Nations.

The intelligence received from the several Missions throughout the world is published once every second month, under the title of "**ANNALS OF THE PROPAGATION OF THE FAITH**," which contain an annual return of the receipts from each Diocese, and their distribution among the different Missions, together with the most interesting and instructive matter.

Every person who, being duly authorized, **COLLECTS FROM TEN SUBSCRIBERS**, receives every two months a copy of the Annals, which he is charged to give to be **READ BY EACH** of his ten subscribers successively, and, after having been perused by them, it becomes his property, as a recompense for his charitable exertions.

Every person, likewise, who subscribes for himself or family the sum of £1 1s. 8d. per year, is entitled, every second month, to receive and to retain a copy of these Annals.

According to the last annual report the Association received the sum of £149,927 15s. 7d., and distributed it, in proportion to their wants, among the Missions of Europe, Asia, Africa, America, and Oceanica.

President—His Grace the Most Rev. Dr. CULLEN, Archbishop of Dublin.

Vice-Presidents—Very Rev. Dean Meyler; Very Rev. Dr. Yore, V.G.

Honorary Secretary—Rev. A. O'Connell, D.D., P.P.

Secretary—Rev. M. Flannery.

Treasurers—The Vice-Presidents, and Stephen Simpson, Esq.

To become a **MEMBER** of the Association, and thus be enabled to gain all the Indulgences and Privileges granted by the Holy See, only two conditions are required—

1st. To Subscribe for the Missions of the Catholic world the sum of *one half-penny a week*.

2nd. To recite a "Pater" and "Ave" every day for the Propagation of the Faith, or it will suffice to apply once for all, with this intention, the *Pater* and *Ave* of our morning or evening prayers, and to add the invocation, *St. Francis Xavier, pray for us*.

The Central Committee meet every week, at 2 o'clock on Thursday, in their Rooms.

All Communications to be addressed to the Rev. Dr. O'Connell, or to the Rev. M. Flannery, and directed to the **CENTRAL COMMITTEE ROOMS, 10, Essex-bridge, Dublin.**

ROWLANDS' MACASSAR OIL

Possesses peculiarly nourishing powers in the growth, restoration, and improvement of the Human Hair, is now universally acknowledged to be the cheapest, and superior to all other preparations for the Hair. It prevents it from falling off or turning grey—strengthens weak hair—cleanses it from Scurf and Dandruff—and makes it beautifully soft, curly, and glossy. In the growth of the BEARD, WHISKERS, and MUSTACHIOS, it is useful in its stimulative operation. For children it is especially recommended, as forming the basis of a beautiful Hair. Price, 3s. 6d.; 7s.; Family Bottles (equal to four small), 10s. 6d.; and double that size, 21s.

IMPORTANT CAUTION.

To prevent the substitution of *Spurious Imitations* for the genuine article by unprincipled Shopkeepers, a New Label from Steel is now used, which cannot be forged. It is composed of a section of an engine-turned circle, repeated *One hundred and thirty times*, by a process peculiar to Messrs. Perkins, Bacon, and Co., and forms an original lacework ground. The subjoined is a small copy in outline of a portion of the Label, as it appears round the Bottle. Another portion contains the signatures of the Proprietors in red ink,

“A. ROWLAND & SONS.”

The whole, with the exception of the profile of Her Majesty “the Queen,” being covered with a lacework tern, in transparent colourless ink.

The Pamphlet, enclosed in the Label or Wrapper, has been re-written and thoroughly revised; and inside the cork and seal to the bottle, a glass stopper, of The Air and Calder Company's Patent, is now used.

ROWLANDS' KALYDOR,

AN ORIENTAL BOTANICAL PREPARATION,

FOR

IMPROVING AND BEAUTIFYING THE COMPLEXION.

It eradicates all REDNESS, TAN, PIMPLES, SPOTS, FRECKLES, and DISCOLORATIONS, and renders THE SKIN SOFT, FAIR, AND BLOOMING.

It obviates all the effects of Climate on the Skin, whether with reference to cold and inclemency, or to solar heat, and affords immediate relief in cases of sunburn, stings of insects, or incidental inflammation. Gentlemen after shaving will appreciate its softening and ameliorating properties.—Price 4s. 6d. and 8s. 6d. per lb.

CAUTION.—The words ROWLANDS' KALYDOR are on the wrapper, and their signature, “A. ROWLAND & SONS,” in red ink, at foot.

SOUND AND WHITE TEETH

Are not only indispensably requisite to a pleasing exterior in both sexes, but they are peculiarly appropiate through life as highly conducive to the purposes of health and longevity, by the proper mastication of food.

OR PEARL DENTIFRICE,

Compounded of Oriental Ingredients, imported at a great expense. This Powder is of INESTIMABLE VALUE in

PRESERVING AND BEAUTIFYING THE TEETH,

STRENGTHENING THE GUMS,

AND IN RENDERING

THE BREATH SWEET AND PURE.

CAUTION.—The words ROWLANDS' ODONTO are on the Label, and A. ROWLAND & SONS, 20, Hatton Street, on the Government Stamp. Price 2s. 9d. per box.
